

[Grenfell Tower site update: summary and Q&A from 8 December 2020 online event](#)

At our online event on 8 December 2020, we updated attendees on the safety works taking place at the site. We also explained the principal contractor procurement currently underway, and how the community can be involved in the process.

We shared details of how the community can have their say about the Tower and the future memorial, as well as giving a reminder about the health and wellbeing services available.

Event attendees were able to post questions to our panel from the Grenfell site management and programme team, and a member of the local NHS health team.
