

# Groundworks contractor fined for cable strike

A groundworks contractor, G&R Groundworks (South East) Ltd, has been fined after an operative struck an underground electricity cable resulting in multiple serious burn injuries.

Folkestone Magistrates' Court heard that, on 15<sup>th</sup> October 2018, G&R Groundworks (South East) Ltd operatives were using an electric ground breaker to dig fence post holes for a car park perimeter fence at a Cummins Power Generation site in Ramsgate, Kent.

While operating the electric breaker, one of the operatives struck an 11kv electricity cable causing a large flash and engulfing him in flames. The operative sustained serious burns to his face, chest, abdomen, groin, both arms and both legs, amounting to approximately 50% total body surface area burns.

An investigation by the Health and Safety Executive (HSE) found that G&R Groundworks (South East) Ltd failed to source and refer to the underground services plans prior to breaking the ground to determine the location of any cables within the planned working area. They also failed to provide their operatives with cable identification equipment to further locate any cables within that area.

G&R Groundworks (South East) Ltd of St Lawrence Avenue, Ramsgate, Kent, pleaded guilty to breaching Regulation 25 (4) of the Construction (Design and Management) Regulations 2015 and was fined £32,400 and ordered to pay costs of £2,657.18.

Speaking after the hearing, HSE inspector Ross Carter said "This incident could so easily have been avoided by simply carrying out correct control measures and safe working practices.

"If a suitable safe system of work was followed prior to the incident, the life changing injuries sustained by the operative would have been prevented.

"Companies should be aware that HSE will not hesitate to take appropriate enforcement action against those that fall below the required standards."

**Notes to Editors:**

1. The Health and Safety Executive (HSE) is Britain's national regulator for workplace health and safety. We prevent work-related death, injury and ill health through regulatory actions that range from influencing behaviours across whole industry sectors through to targeted interventions on individual businesses. These activities are supported by globally recognised scientific expertise. [www.hse.gov.uk](http://www.hse.gov.uk)
