

Harry Dunn: Foreign Secretary statement

I share the frustration of Harry's mother and father. They have lost their son and the justice process is not being allowed to properly run its course. The Prime Minister has spoken to President Trump this evening about the case and made clear that what has happened is not acceptable.

We are continuing to press the US authorities for their cooperation to ensure the police can pursue this case unimpeded and to allow Harry's family to get justice.

We will use every avenue and opportunity open to us to try to right the wrong and allow the justice system to follow its natural course.
