

Companies plead guilty following 2011 refinery explosion

Before Haverfordwest Magistrates' Court, Valero Energy UK Limited and B & A Contracts Limited today pleaded guilty to charges under Sections 2 (1) and 3 (1) of the Health and Safety at Work Etc Act 1974.

The charges relate to the deaths of Dennis Riley, Robert Broome, Andrew Jenkins and Julie Jones and major injuries to Andrew Phillips who were all working on the Amine Recovery Unit when an explosion and subsequent fire took place on 2 June 2011.

This prosecution has been brought by the Health and Safety Executive (HSE).

The case is next due to be heard at Swansea Crown Court on 2 November 2018.

A HSE spokesperson said: "HSE acknowledges the defendants' guilty plea but will not make a further comment until after sentencing."

Energy company fined after worker injured

Siemens Gamesa Renewable Energy has been sentenced after a contractor was injured by a falling steel wire coil.

Peterborough Magistrates' Court heard how, on 23 April 2017, a contractor was

working at the Galloper Offshore Wind Farm pre-assembly site in Great Yarmouth when a steel wire coil, weighing 50kg, dropped onto their left forearm and wrist. The worker suffered a fractured wrist as a result of the incident.

An investigation by the Health and Safety Executive (HSE) found Siemens Gamesa Renewable Energy Ltd failed to ensure a suitable and sufficient risk assessment and adequate control measures were in place to prevent the injury.

Siemens Gamesa Renewable Energy Ltd of Farady House, Sir Williams Siemens Square, Frimely, was found guilty of breaching Section 3(1) of the Health and Safety at Work Act 1974 and was fined £66,000. and ordered to pay £10,106.38 in costs.

Speaking after the hearing, HSE inspector Steve Lewis commented: "This could have been easily prevented if the defendant had put in place simple measures to reduce the risk of injury from dropped objects.

"Undertaking suitable and sufficient risk assessment and developing safe system of work which follow the hierarchy of control are an important element of risk control and reduction. "

Building company and director sentenced after carrying out unsafe and unnecessary work

A building company and its director have been sentenced today after carrying out unsafe and unnecessary building work.

BBS Improvements Limited and sole director Barrie John Henry Birch were

sentenced after a joint investigation by Worcestershire Trading Standards Service and the Health and Safety Executive (HSE) uncovered a string of health and safety and fraud offences.

Worcester Crown Court heard how Mr Birch, operating under BBS Improvements Ltd, was employed to carry out building work on a domestic property in Redditch in May 2017. A complaint was made to Trading Standards who instructed an expert to examine the roof. The expert confirmed that the work was wholly unnecessary and that the work done had no value whatsoever. During the course of their investigations Trading Standards also uncovered potential health and safety issues.

HSE inspectors found that the company was carrying out work at height without scaffolding and that there were no measures in place to prevent employees from falling.

People were walking on the roof of the house with no safety measures in place to prevent them from falling and Mr Birch was present and fully aware of the people working unsafely on the roof.

At the time the complaint was received Mr Birch was also before the court for similar offences committed while trading as a sole trader under the name BBS Improvements.

The Court heard how Mr Birch was employed to carry out minor roofing repair work on a domestic property in Bromsgrove in June 2016. After inspecting the roof Mr Birch advised the homeowner that the whole roof required replacing. A Trading Standards investigation, involving an expert examination of the roof found that the work to replace the roof was totally unnecessary.

Mr Birch admitted an offence under the Fraud Act 2006 and an offence under the Consumer Protection from unfair Trading Regulations 2008 in relation to unnecessary work carried out at a property in Bromsgrove during June 2016. He also pleaded guilty to breaching Section 37 of the Health and Safety at Work etc. Act 1974.

Mr Birch also asked for 5 other, similar matters to be taken into consideration including two offences of failing to provide the 10 Year Insurance Backed Guarantee.

For the Trading Standards offences and the HSE offences Mr Birch was sentenced to 12 months imprisonment, suspended for 2 years, ordered to do 250 hours of unpaid work and was disqualified from being a Company Director for 5 years. He was ordered to pay compensation to the victims and to make a contribution to the prosecution costs. BBS Improvements Limited pleaded guilty to breaching Regulation 6 (3) of the Work at Height Regulations 2005 and the company was fined £200. Speaking after the hearing HSE inspector Matthew Whitaker said: "This prosecution demonstrates how the HSE works in partnership with other enforcers like Trading Standards, to tackle serious crime and dangerous working practices which put people at risk of death and serious injury. "Falls from height remain one of the most common causes of work related fatalities in this country and the risks associated with working

at height are well known. "In this case, suitable measures such as scaffolding should have been provided to ensure the health and safety of people working at height on the roof". Cllr Lucy Hodgson said: "The work done by our small team of Trading Standards Officers to protect Worcestershire consumers cannot go unrecognised.

"In this case Barrie Birch was instructed to carry out relatively minor work but then advised the homeowners that major work was needed when it was not."

"This type of fraudulent activity will not be tolerated in Worcestershire. Our Trading Standards Officers actively investigate criminal complaints of rogue builders such as this, and will continue to do so to protect the public.

"The sentence handed down in this case clearly shows that the Courts view this type of offending very seriously."

Brick manufacturer fined after worker seriously injured in machinery incident

Forterra Building Products Limited has been fined after a worker had his left arm amputated and was left paralysed from the chest down after being drawn into machinery.

Burnley Magistrates' Court heard how on 8 July 2017, Eddie Ely, a chargehand with Forterra Building Products Ltd was working with a group of colleagues to remove a blockage and spillage on a conveyor when he was drawn into the conveyor system. Guards had been removed from the machine but the power had

not been isolated.

An investigation by the Health and Safety Executive (HSE) found that Forterra Building Products Ltd had failed to properly ensure that machines were always isolated from power, to be made safe, before guarding was removed from machinery.

Forterra Building Products Ltd pleaded guilty to breaching Sections 2(1) of the Health and Safety at Work etc act 1974. Total fines of £200000 were imposed with costs of £7529.11.

Speaking after the hearing, HSE inspector Steven Boyd said: "This case shows the devastating consequences of coming into contact with dangerous machinery. It is crucial that companies have a clear procedure for isolating machinery and they have appropriate supervision and monitoring to ensure it is adhered to."

Fine for engineering company following life-changing hand injuries to worker

An engineering company has been fined after an employee's little finger and ring finger were amputated at the first knuckle.

Birmingham Magistrates' Court heard that on 29 January 2018 the employee was working at a site on Holford Way in Birmingham when his gloved hand came into contact with a rotating spindle on a Slack and Par horizontal quick tapping machine and became entangled.

An investigation by the Health and Safety Executive (HSE) found that Rical

Ltd trading as Avon PDC failed to ensure that effective measures were taken to prevent access to the dangerous parts, namely the rotating spindles, of a Slack and Parr horizontal quick tapping machine.

Rical Limited, trading as Avon PDC of Holford Way, Witton, Birmingham pleaded guilty to breaching Regulation 11(1) of The Provision and Use of Work Equipment Regulations 1998 and has been fined £14,000 and ordered to pay costs of £1,383.88.

Speaking after the hearing HSE inspector Karen Sweeney said "This injury was easily preventable and the risk should have been identified. Employers should make sure they properly assess and apply effective control measures to minimise the risk from dangerous parts of machinery."
