

## HK-built solar car off to races

A solar-powered electric car built by students of engineering disciplines at the Hong Kong Institute of Vocational Education (IVE) will participate in the World Solar Challenge 2023, a contest that involves driving 3 000 kilometres across the Australian Outback, later this month.

News.gov.hk spoke to IVE Deputy Academic Director (Engineering) Lam Tze-shan and participating students to learn about the vehicle's design and production, and about how they are preparing for the race.

The story is available at [www.news.gov.hk/eng/feature](http://www.news.gov.hk/eng/feature) today (October 1) in text and video format.
