

HSL: RPE Essentials – Buxton, 18-19 July 2017

Book Course

HSL is to run a 2 day course on RPE Essentials.

18-19 July 2017

Introduction

Whilst the use of RPE should only be considered when other control measures are impractical or after their implementation a residual risk remains, there are many workplace situations where RPE is required.

RPE is capable of providing effective protection, provided that it is correctly selected, used and maintained. Unsuitable, poorly maintained and incorrectly used RPE may give limited protection, or may not provide any protection. This could lead to ill health in the short or long term, with the possibility of permanent disability. If the RPE is being used in conditions where there is an immediate danger to life and health, the situation could prove fatal.

This course will increase your knowledge and understanding of RPE and how it can be used effectively in the workplace as a control measure. It will provide training in correctly selecting adequate and suitable RPE (following the principles of HSG 53 and COSHH essentials), and how it should be used and maintained. The course will include practical elements to enhance learning and provide practical skills.

What will the course cover?

Who should attend?

Persons with responsibility for RPE selection, use and maintenance in a workplace. Those who users may rely upon for guidance on what equipment to obtain and use e.g. suppliers.

Venue

The course will be run at the HSL laboratory in the spa town of Buxton. Buxton is in the heart of the Peak District and has good links to mainline train stations and Manchester International Airport.

Details of hotels in the Buxton area can be found at www.visitbuxton.co.uk

Cost

The cost of this course is £1100 per person (includes course notes, lunch and

refreshments).
