

July 2021

Emerging from the 'cloud', we all now attempt to harness the implications and guidelines that are placed before us. We thank our customers who have supported us through testing times and appreciate the thanks we have and are receiving for our dedication.

We continue to produce bespoke memorial and interment systems and emphasise our existing 30 plus years' service of active support, from manufactured single units to multiple large-scale provision.

The pandemic has emphasised the importance of the welters® Partnership Programme which ensures that our proven track record is readily available for Cemetery Authorities, in any location, which require funding support and additional professional input.

Please continue to view our website (www.welters-worldwide.com) for further information on our products and services and request the specific philosophy and conceptual structure in relation to our Partnership Programme opportunities.
