

Lessons for the Bank of England from the ERM, the banking crash and Brexit

I recently published a study of the damage done to the UK economy by the boom and bust policies of past decades. It was part of a series of papers commissioned by the Centre for Policy Studies (CPS) and published on Capx. I posted the study on the website earlier today.

The CPS webinar event with will be held over Zoom on Wednesday 29th April at 17:00. The link to register

Participants will need to have a Zoom account to join the meeting, which is free, and at the time of the event, they will be able to put questions directly to me.
