

Lochee Park update #dundeewestend

Residents will recall that, back in August, I was pleased to report that the council's environment manager for our area had advised that a new picnic table would be provided at Lochee Park and it was soon in place – see above.

Since then, many residents have pointed out it is very well-used and could more be provided.

I contacted the environment manager about this and have had the following helpful response :

“There is another picnic table to be installed near the play park, along with a youth shelter which will be nearer to the exercise equipment. These are being done as part of our winter programme of works.”
