

Love Dundee Local!

Businesses in Dundee are being invited to join the new 'Love Dundee Local' service, which helps local companies to serve local people.

The service, website and mobile app have been developed by the Dundee and Angus Chamber of Commerce, Dundee City Council and key private sector providers to support businesses across sectors.

Local businesses, including shops, pubs, restaurants, bars, and independent drinks merchants have played a key role in their communities throughout the pandemic by safely providing food and drink, gifts, household goods, and other products to families, people on the shielding list and others.

These businesses are now being given the opportunity to join the 'Love Dundee Local' service to offer food, drinks and other products for collection or delivery, in a new way.

This is an excellent initiative and you can find out more [here](#).
