

Make your own Arctic animal decorations #dundeewestend

From the Curator of Museum Services at the University of Dundee :

You can make your own Arctic animal decorations at the D'Arcy Thompson Zoology Museum at the University of Dundee on the final day of West End Christmas Fortnight – Saturday 10th December – from 10.30am to 12.30pm. Come and visit some of the Arctic and Antarctic animals found in the D'Arcy Thompson Zoology Museum. Discover Narwhals, Penguins, Puffins, Walrus and Polar Bear skulls.

There are many other amazing specimens from around the world for you to be inspired by as well.

After exploring the Zoology Museum, you can have a go at making your own Christmas tree ornaments out of recycled papers and cards.

We will be adding moving parts to bring your Polar animals to life!

You can book at www.eventbrite.co.uk/e/make-your-own-arctic-animal-decorations-tickets-469845218697
