[Syria records lowest annual death toll since war began](#)

Sat, 2022-12-31 23:58

BEIRUT: At least 3,825 people have died in Syria's war in 2022, the lowest yearly toll since the start of the conflict more than a decade ago, a war monitor said on Saturday.

The Britain-based Syrian Observatory for Human Rights had put the death toll at 3,746 throughout 2021, before revising it up to 3,882.

After years of deadly battle and bombardments following the brutal suppression of 2011 anti-regime protests, the conflict has largely abated in the last three years.
