DUBAI: Iran's clerical rulers will likely contain the country's eruption of unrest for now, and prospects of the imminent dawn of a new political order are slim if history is any guide, four analysts said.

The protests, which began over the death of 22-year-old Mahsa Amini her arrest by morality police, have spiralled into a revolt against what

protesters said was the increasing authoritarianism of its ruling Islamic clerics.

BEIRUT: Lebanon's health ministry on Thursday announced the crisis-hit country's first case of cholera in decades. The announcement comes as neighboring war-torn Syria is struggling to contain a cholera outbreak that has spread across the country over the past month. Lebanon began a downward spiral in late 2019 that has plunged three-quarters of its population into poverty. Rampant power cuts, water shortages, and skyrocketing inflation have deteriorated living conditions for millions.
