

New land link an engineering feat

The Hong Kong-Zhuhai-Macao Bridge is set to open to traffic on October 24.

News.gov.hk spoke with Highways Department engineers to learn about the innovative designs and features of the project's Passenger Clearance Building, as well as the challenges the project team encountered when constructing the Hong Kong Link Road.

The two stories appear on news.gov.hk today (October 20) in both text and video format.
