News story: DASA Security Showcase

This is the first DASA security focused event which will bring together the security innovation community, showcasing a number of innovations applicable to the security sector from suppliers who have already received funding through DASA competitions.

There will be briefings from across Government and front line services, with suppliers having the chance to see the range of services available through DASA which helps innovative concepts to reach the marketplace.

There will also be a networking opportunity for innovators from industry, academia, Government and front line service end users.

If you are interested in attending this event, please register on our Eventbrite Page by 6pm, 12 June 2019.
