

News story: Technology Products 2 flash sale

CCS have been working with a number of suppliers on our Technology Products 2 agreement (RM3733) to offer you huge savings on a range of products including desktops and laptops.

The sale begins on 1 March and runs throughout the month, or until stock is sold out. Stock availability is limited and will be sold on a first come, first served basis.

These short-term deals with manufacturers, including HPE, HPI, Dell and Lenovo, Samsung, Apple, XMA and Toshiba could help you save up to 35% for your organisation – whether you are a school, college, local council, NHS trust, charity, police force or government department.

To view the deals, simply log in to the Purchasing Platform (TP2) and some of the Flash sale products will appear on the landing page. Clicking through will take you to the full listing.

These Flash Sale deals are only available through Technology Products 2 (RM3733 Lot 6) via the catalogue content on the Purchasing Platform.

If you do not have a log on, you can find out more about the Purchasing Platform and how to register here :-
