OECD reports to G7 on need to strengthen economic resilience against crises

23/03/2021 – Creating an emergency Rapid Response Forum to ensure global supplies of essential goods continue to flow during major international crises is one of a broad range of recommendations contained in a new OECD report to the G7 on building economic resilience.

[Fostering Economic Resilience in a...Read More »](#)

UK: spending to address COVID-19 and Brexit should fit with productivity, social and environmental goals

14/10/2020 – The United Kingdom faces major challenges from the COVID-19 crisis and leaving the EU Single Market. Ramping up investment in the digital economy, the service sector, green infrastructure and adult skills would strengthen the recovery and help to boost productivity and environmental sustainability for the long term,...[Read More »](#)

Boosting skills would drive UK growth and productivity

19/11/2017 – The United Kingdom has record-high employment levels and very low jobless rates compared to most OECD countries. However, labour productivity growth remains weak and the job prospects of many adults are hurt by their poor literacy and numeracy skills. To boost growth, productivity and earnings, the UK...[Read More »](#)
