

[OFNAA holds exhibition to promote healthy Internet use \(with photos\)](#)

The Office for Film, Newspaper and Article Administration (OFNAA) is holding an exhibition themed "Saying NO to Objectionable Information" at Kai Tin Shopping Centre in Lam Tin for three consecutive days starting from today (December 27). Through exhibition panels, game booths and education videos, the exhibition aims to enhance the public's understanding of the Control of Obscene and Indecent Articles Ordinance (Cap. 390) (COIAO) and promote healthy Internet use among children and young people.

The exhibition is open from 10.30am to 6.30pm at the L2 Atrium of Kai Tin Shopping Centre. Members of the public are welcome to join the exhibition and admission is free. Details of the exhibition are available at [OFNAA's website](#).

The Director of Film, Newspaper and Article Administration, Mr Chaucer Leung, visited the exhibition today, during which he exchanged views with Healthy Information Student Ambassadors of the Healthy Information Student Ambassadors Scheme 2024, and joined members of the public for booth games. He thanked the Ambassadors for assisting in promoting the message of safe and healthy use of the Internet, and encouraged members of the public to invite family and friends to visit the exhibition to help further disseminate such a message in the community, in particular among children and youngsters, with a view to helping them stay away from objectionable materials on the Internet.

To more widely promote healthy Internet use, OFNAA will hold a total of four exhibitions in six months, with the next one to be held on January 11 and 12, 2025, at Lok Fu Place.

OFNAA will continue to organise a series of publicity and public education programmes to promote the message of staying away from obscene and indecent materials on the Internet. A wide range of activities targeting schools, parents, students and the public will be held, including talks on the COIAO and healthy Internet use, online seminars and workshops for parents, the Healthy Information Student Ambassadors Scheme, roving drama for schools, Healthy Mobile App Sticker Design Competition, slogan and colouring competition, Healthy Student Video Contest and Healthy Chinese Public Speaking Competition. For details, please visit [OFNAA's website](#).
