

# Policy paper: Part 2: River basin management planning overview and additional information

*Updated:* Updated document to fix broken links.

Use this document to find out how the river basin management plans (RBMPs) were drawn up. It summarises the technical, economic and engagement processes used to develop each district's RBMP. It explains how the:

- water environment is managed
- requirements of the water framework directive have been met
- water environment is divided up and described
- actions and objectives were identified
