

Press release: Don't throw plastic or other items at Matlock raft racers

With this year's annual Matlock Boxing Day Raft Race given the go-ahead once again, the Environment Agency is urging the thousands of spectators expected to turn out to watch the popular event to leave their flour-filled plastic bags and other objects at home.

In previous years, spectators have thrown eggs, flour, plastic or paper bags, and other products at the raft racers from various points along the 3.5 mile course of the race on the River Derwent, which poses a real threat to the environment and wildlife.

Paul Reeves, Environment Officer at the Environment Agency, said:

We realise the Matlock Raft Race is an important social event for the area, which attracts a large number of local residents as well as visitors from further afield, has a positive impact on the local economy, and raises funds for the Royal National Lifeboat Institution (RNLI).

However, we are appealing to spectators to consider the environment by not throwing flour-filled plastic bags or other objects at the raft racers and into the water this year.

If plastic or paper bags enter the watercourse, they pose a real threat to wildlife both locally and further afield. Last year there were sightings of water birds trying to eat floating flour-filled bags, and the deadly impact of plastics on river and sea life is well known and currently in the news.

Councillor Lewis Rose OBE, Leader of Derbyshire Dales District Council, said:

The Boxing Day raft race has become something of a tradition here in the Derbyshire Dales and long may it continue. However, we absolutely support the Environment Agency's plea to spectators to refrain from activities that threaten the environment and wildlife, as well as littering our waterways and streets.

Kath Stapley, Living Rivers Officer, Derbyshire Wildlife Trust, added:

On behalf of the 60 partner organisations which make up the Derbyshire Derwent Catchment Partnership, we're asking people to spare a thought for the wildlife in and around the River Derwent.

We're constantly working to improve the rivers in the catchment, from Howden Moor above Ladybower Reservoir, down into Derby, but we can only make a difference with support from members of the public. If plastics and other items are thrown into the river at Matlock, they may travel out of sight, but will inevitably affect the watercourse and wildlife downstream in Belper, Duffield, Derby and even down into the River Trent.
