

# Press release: Holmwood drilling site consultation extended and new date for drop-in event

*Updated:* New date for drop-in event in Holmwood.

The Environment Agency invites residents living near the Holmwood oil and gas exploratory site in Dorking, Surrey, to a re-scheduled 'drop-in' event as part of its consultation on a permit application.

The public information event (cancelled last week due to safety concerns caused by the bad weather) will take place between 2.00pm and 7.30pm, Thursday 15 March 2018 at:

Dorking Halls (Martineau Hall)

Reigate Road

Dorking

RH4 1SG

Visitors will be able to discuss the application and the process being followed to determine it, and talk to Environment Agency representatives about how they regulate oil and gas activities.

The consultation period has also been extended by 2 weeks with a new closing date of 29 March 2018 (formerly 15 March). Consultation is on the application by Europa Oil & Gas Limited for a bespoke environmental permit, which is currently being considered by the Environment Agency.

Further information on the applications, a copy of our draft decision document and details of how to comment can be found [online](#).

An Environment Agency spokesperson said:

We were disappointed to have to postpone the event last week, due to bad weather. Our aim is to give everyone a chance to understand the proposed activity and to be able to attend, but without putting themselves at risk through travelling in hazardous conditions. This is an opportunity for local people to find out more about the operations at Holmwood and how we regulate these activities.

An environmental permit sets out stringent conditions that a site must adhere to. We will not issue an environmental permit for a

site if we consider that activities taking place will cause significant pollution to the environment or harm to human health.

Although we are minded to approve the applications for the bespoke and standard rules permit, we are still in the determination process and a final decision has not yet been made. We want to hear from the public and understand people's views on the application. Everybody has the chance to see what the permits may look like and to raise any additional concerns before we make any final decision.
