

Press release: Updated plans for major A2 improvements published

Under the plans, the Bean and Ebbsfleet junctions will both see their capacity increased, improving journeys, boosting safety and preparing the road network for the transformative growth expected in north Kent in the coming decades.

Both junctions will see enlarged junction roundabouts, with new lanes and enhanced slip roads. At Bean, a new bridge will be built over the A2 dual carriageway providing two extra lanes between the two junction roundabouts, which will also be improved, and an additional slip road for eastbound traffic joining the A2.

The Ebbsfleet junction improvements include enlarging the existing roundabouts, widening the road between the roundabouts to a dual carriageway and widening existing slip roads.

An initial consultation ran between January and March last year, before the preferred options were announced in August. Now, the public is being asked for views on the updated plans, which will form the basis of the project's formal planning application.

Highways England Senior Project Manager, Brian Gash said:

Bean and Ebbsfleet junctions serve Bluewater, Ebbsfleet International station and soon the new Garden City and these vital upgrades will help to make sure that the A2 stays fit for the future opportunities coming to Kent.

Demand is expected to grow by up to 200 per cent by 2027, so it is vital that the final proposals we end up taking forward for planning permission are the best we can possibly make them. People's input into the consultation will help us make sure that they are. There are important decisions still to be made about each junction, so I'd encourage anyone with an interest – drivers, residents, business owners and visitors – to get involved.

The announcement has been welcomed by the Ebbsfleet Development Corporation, who have also contributed £45m funding for the project.

Ian Piper, Chief Executive of Ebbsfleet Development Corporation, said:

With up to 15,000 new homes in Ebbsfleet Garden City, it is important that local infrastructure is improved to accommodate this growth. With our support for the proposed scheme for the two A2 junctions and a commitment from us to improve public transport in

the area through a new and upgraded Fastrack service, we are investing to ensure traffic continues to flow.

Details on the plans and feedback forms will be available online from 21 February until 11:45pm on 4 April 2018 on the [scheme web page](#). These pages also include details of the Public Information Events that are taking place throughout February and March.
