RAF A400M 'ATLAS' demonstrated to NZ Air Force

A glorious day in Wellington, New Zealand, provided the perfect backdrop for the RAF to show-off the Airbus A400M 'Atlas' to the Royal New Zealand Air Force as part of a prestigious partnership between the two nations.

×

The A400M, based at RAF Brize Norton in Oxfordshire is the newest aircraft in the RAF's fleet. It boasts cutting edge technology, combined with sheer brute strength to make it a formidable strategic and tactical air lift platform. Able to deploy globally, it specialises in carrying over-sized loads and can transport a load of 25 tonnes over a range of 2,000 nautical miles.

×

The A400M combines huge lifting power with agility, with manoeuvrability akin to a fast-jet rather than an Air Transport Aircraft. It is a phenomenally capable aircraft and able to fly at a staggering 170 degrees angle of bank.

Number 70 Squadron demonstrated the aircraft to Air Commodore Darryn Webb, the New Zealand Defence Force Air Component Commander on a short flight around New Zealands' stunning islands.
