<u>RAF trains alongside Royal Navy over</u> <u>the Black Sea</u>

ROYAL AIR FORCE TRAINS ALONGSIDE ROYAL NAVY OVER THE BLACK SEA

Typhoon∏ aircraft from the Royal Air Force currently based, in Eastern Romania have⊓ been testing the air defence capabilities of HMS Duncan, a Royal Navy Type 45⊓ destroyer which is leading the Standing NATO Maritime Group 2 in the Black Sea. The Four⊓ Typhoons from 3(F) Squadron were tasked to test the capability of HMS Duncan in∏ controlling air defence and anti-surface warfare. During the exercise the ship's crew had the□ opportunity to control some of the jets to defend the destroyer from air attack⊓ and at the same time practice launching an air attack on other surface ships. × HMS⊓ Duncan's Senior Warfare Officer Lt Cdr Michael Waters said: "Opportunities for∏ Type 45 to work with the RAF Typhoons are few and far between, even in the UK.∏ The chance to operate with 135 EAW, and for HMS Duncan to control live aircraft⊓ in the execution of both Air-Air and Air-Surface missions was invaluable and∏ proved our interoperability while both were tasked to NATO in the Black∏ Sea." Flight∏ Lieutenant Brett Fusco, from 3(F) Squadron, co-ordinated 135 EAW's participation∏ and who flew during the exercise explained what happened. He said: "There were⊓ two elements, their fighter controllers on board practiced controlling us∏ against an air threat while one of us was acting as the threat and two of us□ were on Combat Air Patrol protecting the ship. "The other⊓ element was conducting Anti Surface Forces Air Operations (ASFAOs) using the fourth∏ jet. For Duncan it was a chance for them to concurrently have different□

elements of their crew defending against an air threat whilst controlling an

× Following the⊓ conclusion of the exercise there was an opportunity for an exchange with 18 RAF∏ personnel visiting HMS Duncan for a tour of the ship and 15 RN personnel being∏ hosted at MK Air base. Flt Lt Gemma∏ Bean, the 135 EAW Detachment Administrative Officer said: "It was really interesting. It was the first time I've ever been on a RN ship. Just to see how∏ their lifestyle compares to ours was eye-opening. We saw everything from⊓ their helicopter, the operations centre to the bridge and the weapons svstems.″□ She reflected on the similarities of operations, adding: "They are also on NATO ops. It was interesting to see how∏ they conduct theirs working with different nations, liaising with host nations⊓ and how everything fits together as a NATO package." × Pettv⊓ Officer Tim Rumble, from HMS Duncan said: "It was great to have the opportunity to visit an Expeditionary Air Wing deployed with NATO and offered a∏ fascinating insight into the way our RAF colleagues operate. I particularly enjoyed∏ seeing the aircraft up close as well as the unique facilities at MK_{\Box} Airbase." The RAF has deployed 135 Expeditionary⊓ Air Wing, from RAF Leeming with four Typhoon aircraft, from RAF Coningsby, to∏ western Romania until the end of August as part of a four-month NATO mission to∏ enhance air policing. At the same time the Portsmouth-based Type 45 Destroyer,∏ HMS Duncan has been tasked in the Black Sea leading the Standing NATO Maritime∏ Group 2, providing reassurance and deterrence in the Black Sea, as well as⊓ commanding NATO's counter migration activity in the Aegean.
