

Research and analysis: ACRE advice: application for a trial of GM Salmonella Typhi (16/R48/01)

This document is the Advisory Committee on Releases to the Environment (ACRE's) advice to government in considering a request from Oxford Vaccine Group (16/R48/01). The application is for a deliberate release of genetically modified Salmonella Typhi for research and development purposes.

ACRE is satisfied that the trial will not have an adverse effect on human health or the environment.
