

Research and analysis: Public dialogue on geological disposal and working with communities

The department commissioned a public dialogue to inform the open policy making process in the area of community involvement in the siting of a Geological Disposal Facility (GDF).

The project was jointly funded by the Department of Energy and Climate Change (DECC) and Sciencewise as a mechanism for exploring the views of small groups of members of the public on key policy issues relating to the geological disposal of radioactive waste.

The public dialogue project was run by 3KQ and the evaluation report was prepared by URSUS Consulting Ltd.
