

## **News story: Dr Patrick Vallance takes up his appointment as Government Chief Scientific Adviser**

The role of the GCSA is to advise the Prime Minister and government on all matters related to science and technology and to ensure that policies and decisions are informed by the best scientific evidence and strategic long term thinking.

The GCSA is head of the Government Science and Engineering (GSE) profession and Co-chair of the independent [Council for Science and Technology](#) which provides high level advice to the Prime Minister.

Patrick Vallance said:

Harnessing the very best science and technology has never been more important to the UK's economy, future and citizens. Science and technology have a vital role to play at the heart of policy making and I look forward to working with colleagues to ensure the government has the best possible advice, from the best experts, based on the strongest evidence.

It is essential that we have world class scientists and engineers working in government. Excellence can only be delivered by a diverse and inclusive profession. It will be a key priority for me to ensure we go further to improve representation across the profession.

Before joining the Government Office for Science, Patrick Vallance was President, R&D at GlaxoSmithKline (GSK) from 2012. Prior to this, he was Senior Vice President, Medicines Discovery and Development and he joined the company in May 2006 as Head of Drug Discovery.
