

Plans submitted for geothermal energy research opportunity in Clyde Gateway

Two of the UK's leading scientific agencies have submitted plans for an exciting new research development proposed for the Clyde Gateway area in the east end of Glasgow.

Jennifer Jamieson-Ball MCIPR appointed as director of communications and external affairs

We are pleased to announce that Jennifer Jamieson-Ball MCIPR has been appointed to the newly created role of director of communications and external affairs. Jennifer will be joining us on 9 July 2018.

New book by Prof Michael Stephenson | Energy and Climate Change

Mike's new book *Energy and Climate Change: An Introduction to Geological Controls, Interventions and Mitigations* is all about the cycles that connect energy and climate change, and the vital importance of geoscience in understanding, mitigating and adapting to these challenges. It's also about where I think geology, as a science, should be going into the future. So it's partly a book that makes connections – and partly a manifesto!

New board created for the British Geological Survey

The Natural Environment Research Council (NERC) and British Geological Survey

(BGS) have today announced the membership of the first BGS Board.

Lyell Centre still closed

Lyell Centre still closed today (2 March), and also Cardiff and Wallingford.
