Road maintenance works contractor convicted of contravening Noise Control Ordinance

Shun Yuen Construction Company Limited carried out road maintenance works on Castle Peak Road, Yuen Long at night, breaching the conditions of a construction noise permit (CNP). The company was convicted and fined \$14,000 at Fanling Magistrates' Courts today (December 10) for contravening the Noise Control Ordinance (NCO).

A spokesman for the Environmental Protection Department (EPD) said the department received a complaint from a member of the public in April that a contractor carried out road re-surfacing works on Castle Peak Road – Ping

Shan, Yuen Long at night, creating excessive noise and disturbances. The EPD immediately sent officers to the scene for an investigation and confirmed that the total of breakers used by the contractor involved for carrying out the road works exceeded the number that was allowed, and that no noise enclosure was erected to reduce the construction noise, breaching the conditions of the relevant CNP. The EPD immediately revoked the CNP for the concerned works and initiated prosecution action against the contractor involved under the NCO.

The spokesman said that the NCO aims to protect the public from disturbance of their rest. Construction contractors should arrange for construction works to be carried out during daytime and non-general holidays as far as possible to minimise disturbances to nearby residents. If road maintenance works need to be carried out at night due to busy traffic in certain road sections during the daytime period, construction contractors must obtain a CNP from the EPD in advance, and must strictly comply with the conditions of such a CNP. Otherwise, it constitutes an offence. Offenders are liable to a maximum fine of \$100,000 on first conviction. A maximum fine of \$200,000 may be imposed on a subsequent conviction.

Special traffic arrangements for race meeting in Happy Valley tomorrow

Actual implementation of road closure and traffic diversion will be made by the Police at the time depending on traffic conditions in the areas. Motorists should exercise tolerance and patience, and follow the instructions of Police on site.

EMSD announces test results of LPG quality in November 2019

The Electrical and Mechanical Services Department (EMSD) today (December 10) announced that the department collected eight liquefied petroleum gas (LPG) samples from auto-LPG filling stations and LPG terminals on a random basis in November 2019 for laboratory tests. The results showed that the LPG quality of all these samples complied with auto-LPG specifications.

The detailed test results are available on the EMSD's website (www.emsd.gov.hk/en/rl/lpg_sample_analysis_simple). Enquiries can also be made to the EMSD's hotline on 2333 3762.

In addition, the EMSD has been vetting independent third-party test reports submitted by LPG supply companies for each shipment to ensure that the quality of imported LPG complies with the specified requirements.
