

## Appeal for information on missing boy in Wong Tai Sin (with photos)

Police today (June 2) appealed to the public for information on a boy who went missing in Wong Tai Sin.

Cho Tik-laam, Ambrose, aged 17, went missing after he was last seen on Luk Hop Street yesterday (June 1) afternoon. His family made a report to Police on the same day.

He is about 1.7 metres tall, around 52 kilograms in weight and of thin build. He has a pointed face with yellow complexion and short black hair. He was last seen wearing a black T-shirt, green camouflage shorts, blue shoes and carrying a pink rucksack.

Anyone who knows the whereabouts of the missing boy or may have seen him is urged to contact the Regional Missing Persons Unit of New Territories South on 3661 1176 or 5562 1342 or email to [rmpu-nts-2@police.gov.hk](mailto:rmpu-nts-2@police.gov.hk), or contact any police station

## **LD reminds employers and employees to take heat stroke preventive measures in times of Heat Stress at Work** **Warning**

As the Heat Stress at Work Warning is now in effect, the Labour Department (LD) reminds employers and employees to take appropriate measures during the effective period of the warning to prevent heat stroke when

working in hot weather or hot environments.

Employees who work outdoors or in non-air-conditioned indoor environments face high levels of heat stress and are at a relatively higher risk of heat stroke. Employers should assess the risk factors of heat stress for employees at work and, based on the identified risk factors, take necessary preventive and control measures, including rescheduling work periods, setting up shading covers, providing ventilation and heat dissipation equipment, and reminding employees to replenish water and rest in a timely manner.

The Heat Stress at Work Warning is formulated by the LD based on the Hong Kong Heat Index. There are three levels of the warning: Amber, Red and Black, which help employers and employees better understand the level of heat stress while working outdoors or indoors without air-conditioning systems.

A spokesman for the LD said that when the department issues the Heat Stress at Work Warning, employers must refer to the criteria and recommendations provided in the "[Guidance Notes on Prevention of Heat Stroke at Work](#)" to conduct risk assessments, according to the workloads and other relevant heat stress risk factors, for employees who work outdoors or in non-air-conditioned indoor workplaces. Appropriate rest breaks should be arranged every hour, as far as reasonably practicable, based on various levels of the Heat Stress at Work Warning, to reduce employees' risk of heat stroke.

Employees must also follow instructions to rest on time. Whenever there are any symptoms of heat-related illnesses, such as headache, dizziness, thirst, and nausea, they should rest in a cool and shady place, drink water, and inform employers/supervisors to take appropriate action immediately.

The LD issued the "Guidance Notes on Prevention of Heat Stroke at Work", detailing the various risk factors that should be considered when conducting heat stress risk assessments and recommending corresponding control measures for identified risk factors for employers' and employees' reference. For the Heat Stress at Work Warning and related guidelines, please refer to the department's thematic webpage:  
[www.labour.gov.hk/eng/news/prevention\\_of\\_heat\\_stroke\\_at\\_work.htm](http://www.labour.gov.hk/eng/news/prevention_of_heat_stroke_at_work.htm).
