## **DH continues to clamp down on illegal waterpipe smoking in no smoking areas during long weekend (with photo)**

The Tobacco and Alcohol Control Office (TACO) of the Department of Health (DH) continued to clamp down on illegal waterpipe smoking in no smoking areas during the long weekend of the Ching Ming Festival holiday by conducting another enforcement operation, codenamed "Pipepurge", in Causeway Bay last night (April 4). A total of three fixed penalty notices (FPNs) were issued.

During the operation, officers from TACO (including plainclothes officers) carried out inspections and enforcement action at a bar in Causeway Bay, and issued three FPNs to persons illegally smoking waterpipes. TACO's investigation is ongoing, and prosecution may also be taken against the operators of the bar who are suspected of aiding and abetting smoking offences. TACO will also refer the cases to the Liquor Licensing Board for appropriate follow-up action.

Under the Ordinance, conducting a smoking act in a statutory no smoking area (such as indoor areas of bars or restaurants) is prohibited. Any person doing a smoking act in statutory no smoking areas is liable to a fixed penalty of \$1,500. Moreover, where smoking products (including waterpipes) are sold, in bars or otherwise, the restrictions on the promotion and sale of smoking products stipulated in the Ordinance apply. Offenders are liable on summary conviction to a maximum fine of \$50,000. Venue managers of statutory no smoking areas are empowered by the Ordinance to request a smoking offender cease the act; if the offender is not co-operative, the manager may contact the Police for assistance.

In addition, under the Criminal Procedure Ordinance, any person who aids, abets, counsels or procures the commission by another person of any offence shall be guilty of the same offence.

"The DH will continue to closely monitor and take stringent enforcement action against illegal waterpipe smoking. Last year (2024), TACO conducted 162 operations against illegal waterpipe smoking activities in no smoking areas. A total of 162 FPNs were issued against smoking offenders, while 89 summonses were issued to staff members and operators of the bars/restaurants for other related offences," the Head of TACO, Dr Fung Ying said.

Dr Fung reminded the public that waterpipe is a smoking product, and its combustion of fuel (e.g. charcoal) releases carbon monoxide. Exposure to a low concentration of carbon monoxide can lead to a range of symptoms such as dizziness, headache, tiredness and nausea; whereas exposure to a high concentration of carbon monoxide can lead to impaired vision, disturbed co-ordination, unconsciousness, brain damage or even death. People should seek medical attention immediately if they suspect they are developing symptoms of carbon monoxide poisoning.

A typical one-hour waterpipe smoking session exposes the user to 100 to 200 times the volume of smoke inhaled from a single conventional cigarette. Moreover, sharing a waterpipe apparatus increases the risk of transmitting infectious diseases, such as tuberculosis.

She cautioned against waterpipe smoking and the use of other smoking products. Smokers should quit smoking as early as possible for their own health and that of others.
