

16 persons arrested during anti-illegal worker operations (with photo)

The Immigration Department (ImmD) mounted a series of territory-wide anti-illegal worker operations codenamed "Fastrack", "Greenlane", "Lightshadow" and "Twilight", for three consecutive days from March 31 to yesterday (April 2). A total of 14 suspected illegal workers and two suspected employers were arrested.

During the anti-illegal worker operations, ImmD Task Force officers raided 55 target locations, including commercial buildings, massage parlours, residential buildings and restaurants. Fourteen suspected illegal workers and two suspected employers were arrested. The arrested suspected illegal workers comprised four men and 10 women, aged 34 to 59. Among them, three women were suspected of using and being in possession of a forged Hong Kong identity card. Two men, aged 35 and 67, were suspected of employing the illegal workers and were also arrested.

An ImmD spokesman said, "Any person who contravenes a condition of stay in force in respect of him or her shall be guilty of an offence. Also, visitors are not allowed to take employment in Hong Kong, whether paid or unpaid, without the permission of the Director of Immigration. Offenders are liable to prosecution and upon conviction face a maximum fine of \$50,000 and up to two years' imprisonment. Aiders and abettors are also liable to prosecution and penalties."

The spokesman warned, "As stipulated in section 38AA of the Immigration Ordinance, an illegal immigrant, a person who is the subject of a removal order or a deportation order, an overstayer or a person who was refused permission to land is prohibited from taking any employment, whether paid or unpaid, or establishing or joining any business. Offenders are liable upon conviction to a maximum fine of \$50,000 and up to three years' imprisonment. As stipulated in section 20(1)(a) of the Immigration Ordinance, the Chief Executive may make a deportation order against an immigrant, prohibiting the immigrant from being in Hong Kong at any time thereafter if the immigrant has been found guilty in Hong Kong of an offence punishable by imprisonment for not less than two years. Under the prevailing laws, it is an offence to use or possess a forged Hong Kong identity card or a Hong Kong identity card related to another person. Offenders are liable to prosecution and upon conviction face a maximum fine of \$100,000 and up to 10 years' imprisonment."

The spokesman reiterated that it is a serious offence to employ people who are not lawfully employable. Under the Immigration Ordinance, the maximum penalty for an employer employing a person who is not lawfully employable, i.e. an illegal immigrant, a person who is the subject of a removal order or a deportation order, an overstayer or a person who was refused permission to land, has been significantly increased from a fine of \$350,000 and three years' imprisonment to a fine of \$500,000 and 10 years' imprisonment to

reflect the gravity of such offences. The director, manager, secretary, partner, etc, of the company concerned may also bear criminal liability. The High Court has laid down sentencing guidelines that the employer of an illegal worker should be given an immediate custodial sentence.

According to the court sentencing, employers must take all practicable steps to determine whether a person is lawfully employable prior to employment. Apart from inspecting a prospective employee's identity card, the employer has the explicit duty to make enquiries regarding the person and ensure that the answers would not cast any reasonable doubt concerning the lawful employability of the person. The court will not accept failure to do so as a defence in proceedings. It is also an offence if an employer fails to inspect the job seeker's valid travel document if the job seeker does not have a Hong Kong permanent identity card. Offenders are liable upon conviction to a maximum fine of \$150,000 and to imprisonment for one year. In that connection, the spokesman reminded all employers not to defy the law by employing illegal workers. The ImmD will continue to take resolute enforcement action to combat such offences.

Under the existing mechanism, the ImmD will, as a standard procedure, conduct an initial screening of vulnerable persons, including illegal workers, illegal immigrants, sex workers and foreign domestic helpers, who are arrested during any operation with a view to ascertaining whether they are trafficking in persons (TIP) victims. When any TIP indicator is revealed in the initial screening, the ImmD officers will conduct a full debriefing and identification by using a standardised checklist to ascertain the presence of TIP elements, such as threats and coercion in the recruitment phase and the nature of exploitation. Identified TIP victims will be provided with various forms of support and assistance, including urgent intervention, medical services, counselling, shelter or temporary accommodation and other supporting services. The ImmD calls on TIP victims to report crimes to the relevant departments immediately.

DH announces latest situation of dengue fever and reminds grave sweepers to take precautionary measures against mosquito-borne diseases

The Centre for Health Protection (CHP) of the Department of Health (DH) today (April 3) reported the latest number of dengue fever (DF) cases, and reminded the public to maintain strict environmental hygiene, mosquito control and personal protective measures both locally and when travelling to protect their health.

"Tomorrow (April 4) is the Ching Ming Festival and many grave sweepers will go to cemeteries and columbaria. Please remember to take proper anti-mosquito measures to prevent mosquito-borne diseases. With possibly more outdoor exposure, grave sweepers should wear light-coloured and long-sleeved tops and trousers, and use DEET-containing insect repellent on exposed parts of the body and clothing. Remove stagnant water in incense burners and used containers, and clear rubbish before leaving to prevent mosquito breeding," the Controller of the CHP of the DH, Dr Edwin Tsui, said.

Concerning DF cases, from March 28 to yesterday (April 2), the CHP recorded one imported DF case. The patient had travelled to Indonesia during the incubation period.

As of yesterday, nine imported DF cases were recorded this year. A total of 161 cases of DF were recorded in 2024, including 156 imported and five local cases. In 2023, 62 imported cases of DF were recorded.

According to the World Health Organization (WHO), the global incidence of DF has markedly increased over the past two decades, posing a substantial public health challenge. In 2023, ongoing transmissions, combined with an unexpected spike in DF cases, resulted in over 6.5 million cases and more than 7 300 dengue-related deaths reported in over 80 countries/territories. In 2024, the WHO recorded over 14 million cases, which was a record number of cases.

Detailed information on the latest DF situation in Hong Kong, as well as neighbouring and overseas countries and areas, has been uploaded to the CHP [website](#).

Members of the public returning from areas affected by DF should apply insect repellent for 14 days upon arrival in Hong Kong. If feeling unwell, seek medical advice promptly and provide travel details to a doctor.

The public should take heed of the following advice on mosquito control:

- Thoroughly check all gully traps, roof gutters, surface channels and drains to prevent blockage;
- Scrub and clean drains and surface channels with an alkaline detergent compound at least once a week to remove any deposited mosquito eggs;
- Properly dispose of refuse, such as soft drink cans, empty bottles and boxes, in covered litter containers;
- Completely change the water of flowers and plants at least once a week. The use of saucers should be avoided if possible;
- Level irregular ground surfaces before the rainy season;
- Avoid staying in shrubby areas; and
- Take personal protective measures such as wearing light-coloured long-sleeved clothes and trousers, and apply insect repellent containing DEET to clothing or uncovered areas of the body when doing outdoor activities.

â€‹

â€‹DEET-containing insect repellents are effective and the public should take heed of the tips below:

- Read the label instructions carefully first;
- Apply right before entering an area with risk of mosquito bites;
- Apply on exposed skin and clothing;
- Use DEET of up to 30 per cent for pregnant women and up to 10 per cent for children*;
- Apply sunscreen first, then insect repellent; and
- Reapply only when needed and follow the instructions.

* For children who travel to countries or areas where mosquito-borne diseases are endemic or epidemic and where exposure is likely, those aged 2 months or above can use DEET-containing insect repellents with a DEET concentration of up to 30 per cent.

The public should call 1823 in case of mosquito problems and may visit the following pages for more information: the DF page of the [CHP](#) and the [Travel Health Service](#), the latest [Travel Health News](#), [tips for using insect repellents](#), and the CHP [Facebook Page](#) and [YouTube Channel](#).
