

Classes of all evening schools suspended

Attention TV and radio duty announcers:

Please broadcast the following special announcement by the Education Bureau concerning schools, and repeat it at suitable intervals:

Classes of all evening schools are suspended today (October 9).

Suspension of "A Symphony of Lights"

Attention duty announcers, radio and TV stations,

Please broadcast the following as soon as possible and repeat it at suitable intervals:

The Tourism Commission announces that due to the issuing of No. 8 Southeast Gale or Storm Signal by the Hong Kong Observatory, "A Symphony of Lights" will be cancelled tonight (October 9).

Employers, contractors and employees should be aware of electrical safety at work during rainstorm

As the rainstorm warning has been issued by the Hong Kong Observatory, the Labour Department (LD) reminds employers and contractors that they should adopt necessary work arrangements and take suitable safety measures to protect the safety of their employees when they are carrying out electrical work or handling electrical plant.

A spokesman for the LD said today (October 9) that employers and contractors should avoid assigning employees to carry out electrical work (like electric arc welding work) or handle electrical plant at places affected by rainstorms, and should refer to the "Code of Practice in times of Typhoons and Rainstorms" and the "Guide on Safety at Work in times of Inclement Weather" issued by the LD.

Even if electrical work is carried out or electrical plant is handled at places not affected by the rainstorm, suitable safety measures must still be adopted to prevent electric shock as the air would be more humid. Such measures include:

- (i) Ensure that all live parts of an electrical installation are isolated from the power supply source and rendered dead, and the isolation from the power supply source must be maintained as long as electrical work is being carried out;
- (ii) Before carrying out any electrical work or handling any electrical plant, cut off and lock out the power supply source, then test the circuit concerned to confirm it is dead and display suitable warning notices, and issue a work permit thereafter;
- (iii) Ensure that protective devices (such as suitable and adequate fuses and circuit breakers) for the electrical installations or electrical plant have been installed and maintained in good working order, and portable electric tools must be double-insulated or properly earthed;
- (iv) Provide suitable personal protective equipment such as insulating gloves and insulating mats for employees; and
- (v) If live electrical work is unavoidable, a comprehensive risk assessment should be conducted by a competent person and the appropriate safety precautions should be taken to remove or properly control the electrical hazards involved before such work can proceed.

In addition, employees should co-operate with the employer or contractor to follow the safety instructions and use the safety equipment provided.

The LD has published guidebooks and leaflets on electrical work safety. These safety publications are available free from divisional offices of the department or can be downloaded from its website (www.labour.gov.hk/eng/public/content2_8.htm).

Should there be any questions about occupational safety and health matters, please contact the Occupational Safety Officer of the LD at 2559 2297.

Public urged to report flooding

Attention duty announcers, radio and TV stations:

Please broadcast the following as soon as possible and repeat it at suitable intervals:

Members of the public are advised to report any street flooding that

comes to their notice to the Drainage Services Department by calling the 24-hour drainage hotline on 2300 1110.

Tropical Storm Lionrock situation report (2)

The No. 8 Southeast Gale or Storm Signal issued by the Hong Kong Observatory this morning (October 9) remains in force.

The Home Affairs Department has so far opened 19 temporary shelters in various districts and 53 people have sought refuge at the shelters.

As at noon, the 1823 Government Call Centre has received 67 reports of fallen trees. The Drainage Services Department has confirmed two flooding cases. The Civil Engineering and Development Department has received one report of landslide.

According to the Hospital Authority, as at noon, five people (one man and four women) have sought medical treatment at public hospitals during the typhoon period.
