

17th round of compulsory testing for staff members of RCHEs, RCHDs and nursing homes to commence shortly

The Government today (June 8) announced that the 17th round of compulsory testing for staff members of residential care homes for the elderly (RCHEs), residential care homes for persons with disabilities (RCHDs) and nursing homes will commence shortly.

In accordance with section 10(1) of the Prevention and Control of Disease (Compulsory Testing for Certain Persons) Regulation (Cap. 599J), the Secretary for Food and Health issued a compulsory testing notice yesterday (June 7), requiring persons who are employed by and will be on duty at RCHEs, RCHDs, nursing homes and day service units attached to the premises of residential care homes during the period from June 25 to July 8, 2021, or who will provide services to residents or users through hire-of-service contracts with residential care homes and the aforementioned units during that period (including full-time, part-time and relief staff), to undergo polymerase chain reaction-based nucleic acid tests for COVID-19 during the period from June 11 to 24, 2021, according to the requirements and procedure set out in the notice (the Specified Test). However, persons who have completed a COVID-19 vaccination course (i.e. received two doses of a COVID-19 vaccine 14 days before the end of the testing period) are not required to undergo the Specified Test. Persons who have completed a COVID-19 vaccination course in places outside of Hong Kong (i.e. received the recommended dose(s) of a COVID-19 vaccine as stipulated in relevant guidelines 14 days before the end of the testing period, and the vaccine used is included on the list of vaccines recognised for specified purposes as published on www.coronavirus.gov.hk/pdf/list_of_recognised_covid19_vaccines.pdf), are also not required to undergo the Specified Test.

The staff of the aforementioned institutions may choose the following means to undergo the Specified Test:

- (1) To undergo the Specified Test in any of the Community Testing Centres (see the list at www.communitytest.gov.hk/en), Temporary Testing Centres (if any) (see the list at www.swd.gov.hk/en/index/site_pubsvc/page_supportser/sub_ttc), or mobile specimen collection stations (if any) (see the list at www.coronavirus.gov.hk/eng/early-testing.html) in accordance with the instructions given by the staff at the centre/station;
- (2) To undergo the Specified Test as arranged by institution operators at a laboratory listed on the "COVID-19 Thematic Website" (see the list at www.coronavirus.gov.hk/pdf/List_of_recognised_laboratories RTPCR.pdf) and as instructed by the staff of the laboratory;

(3) To obtain a specimen bottle from one of the 121 post offices, 47 general out-patient clinics of the Hospital Authority or vending machines set up at 20 MTR stations, collect a deep throat saliva sample in the specimen bottle as per the guidelines provided together with the specimen bottle, and return the specimen bottle with the sample (see the specimen bottles distribution and specimen collection locations and times at www.coronavirus.gov.hk/eng/early-testing.html);

(4) To undergo the Specified Test at general out-patient clinics of the Hospital Authority as instructed by a medical professional of the Hospital Authority; or

(5) To self-arrange testing provided by a laboratory listed on the "COVID-19 Thematic Website" at their own expense (see the list at www.coronavirus.gov.hk/pdf/List_of_recognised_laboratories_RTPCR.pdf).

Any person who fails to comply with the testing notice commits an offence and may be subject to a fixed penalty of \$5,000. He or she would also be issued with a compulsory testing order requiring him or her to undergo testing within a specified time frame. Failure to comply with the order is an offence and the offender would be liable to a fine at level 4 (\$25,000) and imprisonment for six months.

A spokesman for the Social Welfare Department (SWD) said that the SWD and the Department of Health would issue letters to institutions to inform them of the relevant arrangements and requirements. The spokesman reminded that staff of the said institutions who would undergo testing at community testing centres should make an advance booking via the community testing centre booking system (www.communitytest.gov.hk) for the free testing service. In addition, institution operators should remind their staff members to properly keep the SMS notifications of their test results or their test result reports.

Institution operators are required to keep records of their staff having received the Specified Test and the results within the time frame specified by the Government. They are also required to keep the list of staff members who have completed a COVID-19 vaccination course. Institution operators also have to co-operate with Checking Officers (Compulsory Testing) of the SWD who are enforcing the Regulation at residential care homes.

The Government will continue to monitor the epidemic situation and make adjustments to the aforementioned testing policy after taking the overall anti-epidemic measures into account. Although staff members who have completed a COVID-19 vaccination course are exempted from the regular compulsory testing, they can still receive free testing if they voluntarily choose to undergo the test.

Red flags hoisted at some beaches

Attention TV/radio announcers:

Please broadcast the following as soon as possible:

Here is an item of interest to swimmers.

The Leisure and Cultural Services Department announced today (June 8) that due to big waves, red flags have been hoisted at Stanley Main Beach and Shek O Beach in Southern District, Hong Kong Island; and Clear Water Bay Second Beach in Sai Kung District. Beach-goers are advised not to swim at these beaches.

Government to gazette compulsory testing notice

The Government will exercise the power under the Prevention and Control of Disease (Compulsory Testing for Certain Persons) Regulation (Cap. 599J) and publish in the Gazette a compulsory testing notice, which requires any person who had been present at 13 specified premises during the specified period (persons subject to compulsory testing) to undergo a COVID-19 nucleic acid test.

Since there were outbreaks of upper respiratory tract infection and/or influenza-like illness in 13 schools, and the symptoms of the diseases concerned are similar to those of COVID-19, for prudence's sake, eight schools and the specified level of five schools are covered in the compulsory testing notice today (June 7). Under existing practice, the Centre for Health Protection (CHP) will provide schools subject to compulsory testing with stool specimen bottles and deep throat saliva specimen collection packs direct.

Details of the compulsory testing notice are in Annex 1.

Subsequent to the announcement by the CHP on the updated quarantine arrangements of local COVID-19 cases with the N501Y mutant strain, persons who resided or worked within the same building as the residence of relevant cases and had been released from the quarantine centres will be subject to compulsory testing on the third, seventh, 12th and 19th day counting from the announcement of the relevant confirmed case by the Department of Health (DH). Relevant persons have to undergo testing on specified dates. They will also be required to undergo self-monitoring until the 21st day (see the details of the buildings and dates of testing at

www.coronavirus.gov.hk/pdf/CTN_Specified_premises_and_Dates_of_Testing.pdf).

In accordance with the compulsory testing notice issued earlier, all household members of close contacts are required to undergo compulsory testing. Any person who had lived with a person placed under quarantine pursuant to section 22 of the Prevention and Control of Disease Regulation (Cap. 599A) (person under quarantine) in the same residential unit on the date of commencement of quarantine or during the 14 days before that day, and who becomes aware of the quarantine of the person under quarantine when the relevant quarantine has not yet been completed, has to undergo testing within two days of him or her becoming aware that the person under quarantine has been placed under quarantine and report to the Government the result of the test by phone (6275 6901), fax (2530 5872) or email (ct@csb.gov.hk) within three days of undergoing the test.

Persons who have completed a COVID-19 vaccination course would be taken to have complied with the requirements set out in the compulsory testing notices and hence are not required to undergo compulsory testing. Completion of the vaccination course in general means having received two doses of COVID-19 vaccine 14 days ago.

Currently, there are a total of 21 community testing centres (CTCs) providing testing services for the public, including free service for persons subject to compulsory testing. Booking and walk-in services are available. Members of the public only need to provide simple personal information on the 24-hour booking system (www.communitytest.gov.hk/en). The system shows the booking status of the centres for the coming week to facilitate the public's planning and selection of a suitable testing centre and a time slot for testing. The testing centres will accord priority to serve individuals with advance bookings. The number of tests available for appointments at CTCs has been increased to over 46 000 per day, and additional manpower has been deployed to serve the public. As of 6pm today, there were around 35 000 booking places available for tomorrow (June 8) at the CTCs, and around 88 per cent availability for booking places for the coming seven days. Members of the public may call the testing centres for enquiries on the availability of bookings or walk-in quotas before visiting the centres.

The Government will set up a mobile specimen collection station at walkway between Nina Tower and Tsuen Wan Park tomorrow (June 8) to provide free testing service for staff and visitors of Nina Mall subject to compulsory testing. Outdoor mobile specimen collection stations will be closed if Strong Wind Signal No. 3 or Red Rainstorm Warning Signal is hoisted while all mobile specimen collection stations together with all community testing centres will be closed when No. 8 Gale or Storm Signal or higher, or Black Rainstorm Warning Signal is hoisted.

Coupled with the 21 CTCs, there will be a total of 38 CTCs/mobile specimen collection stations in various districts tomorrow to provide free service for persons subject to compulsory testing. The testing capacity should be sufficient to meet the demand. The opening dates and operating hours of the mobile specimen collection stations in various districts

providing free COVID-19 nucleic acid testing services for the general public are stated in Annex 2. Persons subject to compulsory testing and those with the "LeaveHomeSafe" COVID-19 exposure notification or SMS notification from the CHP reminding them to undergo testing as soon as possible may receive free testing at CTCs or mobile specimen collection stations (if the service scope is applicable).

Persons subject to compulsory testing may choose to undergo testing via the following routes:

1. To visit any of the mobile specimen collection stations (see the list and target groups (if applicable) at www.coronavirus.gov.hk/eng/early-testing.html) for testing;
2. To attend any of the CTCs (see the list at www.communitytest.gov.hk/en);
3. To obtain a deep throat saliva specimen collection pack from any of the 121 post offices, vending machines set up at 20 MTR stations or 47 designated general outpatient clinics (GOPCs) of the Hospital Authority and return the specimen to one of the designated specimen collection points (see the distribution points and times, and the specimen collection points and times, at www.coronavirus.gov.hk/eng/early-testing.html);
4. To undergo testing at any of the GOPCs of the Hospital Authority as instructed by a medical professional of the Hospital Authority;
5. To self-arrange testing provided by private laboratories which are recognised by the DH and can issue SMS notifications in respect of test results (see the list at www.coronavirus.gov.hk/pdf/List_of_recognised_laboratories_RTPCR.pdf); or
6. To use a specimen bottle distributed to the relevant specified premises by the CHP (if applicable), and return the specimen bottle with the sample collected as per relevant guidelines.

A spokesman for the Food and Health Bureau cautioned that testing received at the Accident and Emergency Departments of the Hospital Authority or during hospital stays, or testing provided by private laboratories which cannot issue SMS notifications in respect of test results, does not comply with the requirements of the aforementioned compulsory testing notice.

"If persons subject to compulsory testing have symptoms, they should seek medical attention immediately and undergo testing as instructed by a medical professional. They should not attend the mobile specimen collection stations or the CTCs."

Persons subject to compulsory testing must keep the SMS notifications containing the result of the test for checking by a law enforcement officer when the officer requires the persons to provide information about their undergoing the specified test.

Furthermore, persons subject to testing under the compulsory testing notices should, as far as reasonably practicable, take appropriate personal disease prevention measures including wearing a mask and maintaining hand hygiene, and, unless for the purpose of undergoing the specified test, stay at their place of residence and avoid going out until the test result is ascertained as far as possible.

Any enquiries on compulsory testing arrangements may be addressed to the hotline at 6275 6901, which operates daily from 9am to 6pm. If persons subject to compulsory testing plan to conduct testing at any of the CTCs, they can check the centre's appointment status in advance. The hotlines of the CTCs are available at www.communitytest.gov.hk/en/info.

The Government will continue to trace possibly infected persons who had been to the relevant premises, and seriously verify whether they had complied with the testing notices. Any person who fails to comply with the testing notices commits an offence and may be fined a fixed penalty of \$5,000. The person would also be issued with a compulsory testing order requiring him or her to undergo testing within a specified time frame. Failure to comply with the order is an offence and the offender would be liable to a fine at level 4 (\$25,000) and imprisonment for six months.

Relevant officers of different government departments are empowered to perform certain functions under the relevant Regulations under the Prevention and Control of Disease Ordinance (Cap. 599), including requesting individuals to provide information and assistance when necessary. Any person who fails to comply with the relevant request commits an offence and would be liable to a fine at level 3 (\$10,000). Collection and use of any personal data for conducting COVID-19 tests must meet the requirements under the Personal Data (Privacy) Ordinance (Cap. 486). Government departments or testing service providers which handle the relevant information may provide the data to the DH or other relevant departments for anti-epidemic purposes as necessary. The workflow does not involve the provision of any personal data to organisations or persons outside Hong Kong.

The spokesman said, "The Government urges all individuals who are in doubt about their own health conditions, or individuals with infection risks (such as individuals who visited places with epidemic outbreaks or contacted confirmed cases), to undergo testing promptly for early identification of infected persons."

[Government to gazette compulsory testing notice](#)

The Government will exercise the power under the Prevention and Control of Disease (Compulsory Testing for Certain Persons) Regulation (Cap. 599J) and publish in the Gazette a compulsory testing notice, which requires any person who had been present at 13 specified premises during the specified period (persons subject to compulsory testing) to undergo a COVID-19 nucleic acid test.

Since there were outbreaks of upper respiratory tract infection and/or

influenza-like illness in 13 schools, and the symptoms of the diseases concerned are similar to those of COVID-19, for prudence's sake, eight schools and the specified level of five schools are covered in the compulsory testing notice today (June 7). Under existing practice, the Centre for Health Protection (CHP) will provide schools subject to compulsory testing with stool specimen bottles and deep throat saliva specimen collection packs direct.

The Government will continue to trace possibly infected persons who had been to the relevant premises, and seriously verify whether they had complied with the testing notices. Any person who fails to comply with the testing notices commits an offence and may be fined a fixed penalty of \$5,000. The person would also be issued with a compulsory testing order requiring him or her to undergo testing within a specified time frame. Failure to comply with the order is an offence and the offender would be liable to a fine at level 4 (\$25,000) and imprisonment for six months.

Relevant officers of different government departments are empowered to perform certain functions under the relevant Regulations under the Prevention and Control of Disease Ordinance (Cap. 599), including requesting individuals to provide information and assistance when necessary. Any person who fails to comply with the relevant request commits an offence and would be liable to a fine at level 3 (\$10,000). Collection and use of any personal data for conducting COVID-19 tests must meet the requirements under the Personal Data (Privacy) Ordinance (Cap. 486). Government departments or testing service providers which handle the relevant information may provide the data to the DH or other relevant departments for anti-epidemic purposes as necessary. The workflow does not involve the provision of any personal data to organisations or persons outside Hong Kong.

The spokesman said, "The Government urges all individuals who are in doubt about their own health conditions, or individuals with infection risks (such as individuals who visited places with epidemic outbreaks or contacted confirmed cases), to undergo testing promptly for early identification of

infected persons."

COVID-19 Vaccination Programme statistics

The COVID-19 Vaccination Programme has been implemented for 102 days since February 26, 2021.

So far, about 2 679 600 doses of vaccines have been administered under the Vaccination Programme. Details are as follows:

	Number of persons receiving Sinovac vaccine	Number of persons receiving BioNTech vaccine	Total number of doses
First vaccine dose	677 900	879 500	1 557 500
Second vaccine dose	472 200	649 900	1 122 100

* The numbers are rounded to the nearest hundred.

In the 24 hours ending at 8pm today (June 7), about 42 000 persons have received vaccination and about 35 900 new vaccination bookings have been made online. Details are as follows:

	Sinovac vaccine	BioNTech vaccine
Number of persons receiving first dose	14 100	15 200
Number of persons receiving second dose	5 000	7 700
Overall percentage of persons receiving vaccines at Community Vaccination Centres (CVCs)	96%	97%
Number of online bookings for receiving first and second vaccine doses	12 500	23 400

* The numbers are rounded to the nearest hundred.

In the 24 hours ending at 0.00am today, there were nine cases of ambulance transfer to hospital from CVCs. They were sent to hospital after experiencing common side effects after vaccination and were in stable condition. Seven of them were discharged and two persons were admitted for observation.
