

CHP investigates one additional confirmed case of COVID-19

The Centre for Health Protection (CHP) of the Department of Health (DH) announced that as of 0.00am, May 19, the CHP was investigating one additional confirmed case of coronavirus disease 2019 (COVID-19), taking the number of cases to 11 828 in Hong Kong so far (comprising 11 827 confirmed cases and one probable case).

The newly reported case is an imported case.

A total of 36 cases have been reported in the past 14 days (May 5 to 18), including eight local cases of which one is from an unknown source.

In addition, the CHP is investigating an overseas case. The case involves a 43-year-old male patient who arrived Hong Kong on April 22 from Italy taking flight QR818 operated by Qatar Airways. According to the patient, he tested positive for COVID-19 in Italy in late February. He underwent hotel quarantine in Ramada Hong Kong Harbour View from April 22 to May 12. He then stayed in Harbour Plaza Resort City from May 13 to 16 before taking flight CX368 to Shanghai on May 16. The CHP was notified on May 18 by Shanghai health authority that the patient has been confirmed COVID-19 positive on May 17. The CHP is conducting epidemiological investigations and contact tracing.

The CHP's epidemiological investigations and relevant contact tracing on the confirmed cases are ongoing. For case details and contact tracing information, please see the Annex or the list of buildings with confirmed cases of COVID-19 in the past 14 days and the latest local situation of COVID-19 available on the website "COVID-19 Thematic Website" (www.coronavirus.gov.hk).

Meanwhile, the CHP reminded those who had visited specified venues under the Prevention and Control of Disease (Compulsory Testing for Certain Persons) Regulation (Cap. 599J) to receive COVID-19 nucleic acid testing according to the CTNs. The Regulation also requires all household members of close contacts of confirmed cases to undergo a COVID-19 nucleic acid test within a specified period according to CTNs published in the Gazette. The public are also urged to seek medical attention early if symptoms develop and undergo testing as soon as possible.

The Government has launched the COVID-19 Vaccination Programme. Members of the public are encouraged to get vaccinated. Details of the programme can be found at the designated website (www.covidvaccine.gov.hk).

The CHP called on members of the public to avoid going out, having social contact and dining out. They should put on a surgical mask and maintain stringent hand hygiene when they need to go out. The CHP strongly

urged the elderly to stay home as far as possible and avoid going out. They should consider asking their family and friends to help with everyday tasks such as shopping for basic necessities.

The spokesman said, "Given that the situation of COVID-19 infection remains severe and that there is a continuous increase in the number of cases reported around the world, members of the public are strongly urged to avoid all non-essential travel outside Hong Kong.

"The CHP also strongly urges the public to maintain at all times strict personal and environmental hygiene, which is key to personal protection against infection and prevention of the spread of the disease in the community. On a personal level, members of the public should wear a surgical mask when having respiratory symptoms, taking public transport or staying in crowded places. They should also perform hand hygiene frequently, especially before touching the mouth, nose or eyes.

"As for household environmental hygiene, members of the public are advised to maintain drainage pipes properly and regularly pour water into drain outlets (U-traps). After using the toilet, they should put the toilet lid down before flushing to avoid spreading germs."

Moreover, the Government has launched the website "COVID-19 Thematic Website" (www.coronavirus.gov.hk) for announcing the latest updates on various news on COVID-19 infection and health advice to help the public understand the latest updates. Members of the public may also gain access to information via the COVID-19 WhatsApp Helpline launched by the Office of the Government Chief Information Officer. Simply by saving 9617 1823 in their phone contacts or clicking the link wa.me/85296171823?text=hi, they will be able to obtain information on COVID-19 as well as the "StayHomeSafe" mobile app and wristband via WhatsApp.

To prevent pneumonia and respiratory tract infections, members of the public should always maintain good personal and environmental hygiene. They are advised to:

- Wear a surgical mask when taking public transport or staying in crowded places. It is important to wear a mask properly, including performing hand hygiene before wearing and after removing a mask;
- Perform hand hygiene frequently, especially before touching the mouth, nose or eyes, after touching public installations such as handrails or doorknobs, or when hands are contaminated by respiratory secretions after coughing or sneezing;
- Maintain drainage pipes properly and regularly (about once a week) pour about half a litre of water into each drain outlet (U-trap) to ensure environmental hygiene;
- After using the toilet, put the toilet lid down before flushing to avoid spreading germs;
- Wash hands with liquid soap and water, and rub for at least 20 seconds. Then rinse with water and dry with a disposable paper towel. If hand washing facilities are not available, or when hands are not visibly soiled,

performing hand hygiene with 70 to 80 per cent alcohol-based handrub is an effective alternative;

- Cover your mouth and nose with tissue paper when sneezing or coughing. Dispose of soiled tissues into a lidded rubbish bin, then wash hands thoroughly; and
- When having respiratory symptoms, wear a surgical mask, refrain from work or attending class at school, avoid going to crowded places and seek medical advice promptly.

Red flag hoisted at Hung Shing Yeh Beach

Attention TV/radio announcers:

Please broadcast the following as soon as possible:

Here is an item of interest to swimmers.

The Leisure and Cultural Services Department announced today (May 19) that due to big waves, the red flag has been hoisted at Hung Shing Yeh Beach in Islands District. Beach-goers are advised not to swim at the beach.

The Home Affairs Department has opened 19 temporary heat shelters today (May 19) as the Very Hot Weather Warning is in force.

The shelters will be closed at 10pm if the warning is cancelled before 4.30pm. Otherwise, the shelters will be open until 8am tomorrow.

For further information, please call the department's hotline on 2572 8427.

The 19 temporary heat shelters are located at:

Hong Kong Districts:

Central and Western –
Sai Ying Pun Community Complex Community Hall

3/F, Sai Ying Pun Community Complex
2 High Street, Sai Ying Pun

Eastern –
Causeway Bay Community Centre
7 Fook Yum Road, Causeway Bay

Southern –
Wah Kwai Community Centre
Wah Kwai Estate, Kellett Bay

Wan Chai –
Wan Chai Activities Centre
LG/F, Wan Chai Market, 258 Queen's Road East, Wan Chai

Kowloon Districts:

Kowloon City –
Hung Hom Community Hall
1/F, Kowloon City Government Offices
42 Bailey Street, Hung Hom

Kwun Tong –
Lam Tin (West) Estate Community Centre
71 Kai Tin Road, Lam Tin

Sham Shui Po –
Shek Kip Mei Community Hall
G/F, Block 42, Shek Kip Mei Estate, Sham Shui Po

Wong Tai Sin –
Tsz Wan Shan (South) Estate Community Centre
45 Wan Wah Street, Tsz Wan Shan

Yau Tsim Mong –
Henry G Leong Yaumatei Community Centre
60 Public Square Street, Yau Ma Tei

New Territories Districts:

Islands –
Tung Chung North Park (Zone B) Activity Room
29 Man Tung Road, Tung Chung

Kwai Tsing –
Kwai Shing Community Hall
Podium, Block 6, Kwai Shing West Estate, Kwai Chung

North –

Cheung Wah Community Hall
Cheung Wah Estate, Fanling

Sai Kung –
King Lam Neighbourhood Community Centre
King Lam Estate, Tseung Kwan O

Sha Tin –
Lung Hang Estate Community Centre
Lung Hang Estate, Sha Tin

Tai Po –
Tai Po Community Centre
2 Heung Sze Wui Street, Tai Po

Tsuen Wan –
Lei Muk Shue Community Hall
G/F, Hong Shue House, Lei Muk Shue Estate, Tsuen Wan

Tuen Mun –
Butterfly Bay Community Centre
Butterfly Estate (near Tip Sum House), Tuen Mun

Yuen Long –
Long Ping Community Hall
Long Ping Estate, Yuen Long

Yuen Long –
Tin Yiu Community Centre
Tin Yiu Estate, Tin Shui Wai

CHP reminds public on precautions against heat stroke during very hot weather

The Centre for Health Protection (CHP) of the Department of Health (DH) today (May 19) reminded members of the public, particularly those undertaking outdoor activities, to take heed of necessary measures against heat stroke and sunburn in very hot weather.

"The public should carry and drink plenty of water to prevent dehydration while engaging in outdoor activities," a spokesman for the CHP said.

"Those engaged in strenuous outdoor activities should avoid beverages

containing caffeine, such as coffee and tea, as well as alcohol, as they speed up water loss through the urinary system," the spokesman explained.

"The obese, the sick, including those with heart disease or high blood pressure, the old and the young are more vulnerable to heat-related illnesses. They should pay special attention," the spokesman added.

The public should adopt the following precautions:

- Wear loose and light-coloured clothing to reduce heat absorption and facilitate sweat evaporation and heat dissipation;
- Avoid vigorous exercise and prolonged activities like hiking or trekking as heat, sweating and exhaustion can place additional demands on the physique;
- Perform outdoor activities in the morning or late afternoon;
- For indoor activities, open all windows, use a fan or use air-conditioning to maintain good ventilation; and
- Reschedule work to cooler times of the day.

If working in a hot environment is inevitable, introduce shade in the workplace where practicable. Start work slowly and pick up the pace gradually. Move to a cool area for rest at regular intervals to allow the body to recuperate.

The public should also note the latest and the forecast Ultraviolet (UV) Index released by the Hong Kong Observatory (HKO). When the UV Index is high (6 or above):

- Minimise direct exposure of the skin and the eyes to sunlight;
- Wear long-sleeved and loose-fitting clothes;
- Wear a wide-brimmed hat or use an umbrella;
- Seek a shaded area or put on UV-blocking sunglasses;
- Apply a broad-spectrum sunscreen lotion with a Sun Protection Factor (SPF) of 15 or above. Apply liberally and reapply after swimming, sweating or toweling off; and
- While using DEET-containing insect repellents for personal protection against mosquito-borne diseases, apply sunscreen first, then insect repellent.

If symptoms develop, such as dizziness, headache, nausea, shortness of breath or confusion, rest and seek help immediately, and seek medical advice as soon as possible.

The public may obtain more information from the DH's Health Education Infoline (2833 0111), [heat stroke](#) page and [UV radiation](#) page; the HKO's Dial-a-Weather (1878 200), latest [weather and forecast](#), [UV Index](#) and weather information for [hiking and mountaineering](#); and [press releases](#) of the Labour Department on precautions against heat stroke for outdoor workers and their employers when the Very Hot Weather Warning is in force.

Assess the risk of heat stroke to employees

Attention duty announcers, radio and TV stations:

Please broadcast the following special announcement immediately, and repeat it at frequent intervals when the Very Hot Weather Warning is in force:

The Labour Department reminds employers that as the Very Hot Weather Warning is in force, they should assess the risk of heat stroke to their employees and adopt effective preventive measures such as providing cool drinking water, setting up temporary sunshade, providing mechanical aids to reduce physical exertion of employees and providing for employees as far as practicable covered space with good ventilation for rest and meals. Employees should drink water regularly and be mindful of their physical condition. If early heat stroke symptoms such as headache and thirst appear, they should rest in a cool or shady place and drink water immediately. They should also inform their supervisors to take appropriate action.
