- what the application is about
- how you can view the application documents
- when you need to comment by

The Environment Agency will decide:

- whether to grant or refuse the application
 - what conditions to include in the permit (if granted)
-

News story: RWM has new independent Chair of the Board

Professor Malcolm Morley OBE has been appointed as Chair of Radioactive Waste Management (RWM). Last autumn, after almost 14 years in post, Professor Morley retired as Chief Executive of Harlow Council, where he led its transformation to become an award-winning local authority.

Upon news of his appointment, Malcolm commented:

I'm honoured to be leading RWM as Chair at this critical time. RWM's mission to deliver a long-term solution for the safe disposal of higher-activity radioactive waste will protect future generations and our environment from the legacy of waste the UK has created over the past 60 years. RWM's outstanding expertise in areas such as science and engineering, and its commitment to community engagement, will help deliver an infrastructure project like no other we've seen before in the UK and I am delighted to be a part of the team.

News story: Your chance to influence policy on geological disposal

The Department for Business, Energy and Industrial Strategy (BEIS), the Northern Ireland Department of Agriculture, Environment and Rural Affairs, and the Welsh Government, have opened consultations on the proposed approach to working with communities in identifying potential sites for a GDF, and the associated planning process.

Stakeholders and members of the public will have the opportunity to provide feedback which will help shape the key policies on geological disposal. Ann McCall, RWM's GDF Siting and Engagement Director, said:

Geological disposal will provide a safe, secure and long-term solution for managing the UK's radioactive waste, and RWM welcomes the public consultations which place communities at the heart of the process. As the delivery body for geological disposal, we are eager to work with communities to progress this important programme on behalf of society.

Map: Facilitation fund: successful applications in 2017 national round

The document gives details for each group including:

- their priorities

- the map of their area
- their email address

The map shows the location of the 37 successful applications.
