

[Form: Environmental permit: appeal form](#)

Updated: Form and guidance revised to include the new GDPR information

You might need an [environmental permit](#) if your business manages or produces waste or emissions that pollute the air, water or land.

[Collection: Environmental appeals](#)

Updated: Waste Carrier added to the document collection

- Environmental liability
 - Environmental permitting
 - Water Abstraction and Impoundment
 - Hazardous Substances Consent
 - Waste Carrier
-

[Collection: Flood and coastal erosion risk management: current schemes and strategies](#)

Updated: Added Elmer flood scheme.

The Environment Agency considers a wide range of different measures to address the flood and coastal erosion risk to communities and property. The measures needed for each location are considered on a case by case basis. Some of the measures that may be considered include:

- building flood and coastal defences
- flood storage reservoirs
- land management
- portable defences

The strategies and schemes are grouped by the geographic areas the

Environment Agency operates from.

Statutory guidance: EU ETS Phase III: guidance for installations

Updated: We have amended this guidance to reflect the changes to requirements in the UK Regulations which came into force 27 December 2017. In summary, the key changes are the revised reporting and surrender deadlines relating to the 2018 scheme year.

This guidance will help you meet your obligations under the UK Regulations and applicable European legislation.

It explains:

- whether you need a permit under the UK Regulations
- how to make applications (including permit applications)
- how to comply with the conditions in your permit

It's divided into 5 sections:

1. Do I have any obligations under the EU ETS?
 2. How do I apply for a permit?
 3. I have a permit, what do I need to do now?
 4. Things have changed, what should I do?
 5. I'm not happy with a decision, what should I do?
