

# Operating on a 'surrendered' licence

Press release

In a recent public inquiry before Deputy Traffic Commissioner Nick Denton, Roger Arnold lost both his good repute and operators' licence.

In a recent public inquiry before Deputy Traffic Commissioner Nick Denton, Roger Arnold trading as R A International lost both his good repute and his operators' licence. He held a sole trader goods vehicle standard international operator licence for five vehicles and six trailers, granted in 2002. Mr Richard Arnold was the named transport manager for the company.

In May 2022, a vehicle specified on Roger Arnold's licence had been stopped by DVSA at the roadside on 29 September 2021. It was displaying a disc in the name of Midland Bulk Services Ltd. This company's licence had been surrendered by its liquidators in June 2021, after it had entered liquidation in April 2021. The vehicle was also being driven by Ryan Kembery, a former director of Midland Bulk Services Ltd until shortly before it had entered liquidation. The registered keeper of vehicle was Ryan Kembery.

Mr Kembery was now the sole director of Midlands Aggregates Ltd, a company which does not hold an operator's licence. the analogue tachograph charts in Mr Kembery's possession showed that he was the sole and regular driver of the vehicle.

The commissioner had no hesitation in finding that Roger Arnold has been lending his licence to Ryan Kembery. The contract between them for transport services stated that Mr Kembery must provide his own vehicle and would operate autonomously from Mr Arnold. Mr Arnold clearly had no oversight of Mr Kembery's drivers' hours as Mr Kembery was not handing charts into him.

The deputy commissioner said "Lending an operator licence to someone who does not have one is a very serious issue. It is an attempt to circumvent the entire operator licensing system. By his actions Roger Arnold has facilitated the operation of goods vehicles by a person with no right to do so. It is beyond my understanding how an operator could behave so dishonestly and so disgracefully."

The transport manager also lost his repute indefinitely as he must either have conspired with the licence holder or been so remote that he did not realise it was happening.

The decision can be found [here](#).

## [Statement: 2022 elections in Lesotho](#)

World news story

Initial statement of the United Kingdom Observer Mission for 2022 elections in the Kingdom of Lesotho.

The United Kingdom commends the conduct of the general election held in the Kingdom of Lesotho. Observers from the United Kingdom identified a peaceful and well-managed election along with a small number of concerns relating to the confusion surrounding the electoral roll.

The United Kingdom Observer Mission focused on 20 polling stations across 3

districts of Lesotho:

The Mission found calm and peaceful proceedings at all the polling stations it visited throughout the day of the elections. The voting process was lengthy at times with some voters having to wait multiple hours to cast their vote, but this did not result in any incidents during observation.

The voting process was observed as transparent with processes and procedures as outlined in the constitution of the Kingdom of Lesotho followed at the polling stations observed by the Mission.

There were concerns raised with a small number of cases with confusion for individual names on the electoral roll. The Mission noted the existence of such cases, which may have led to disenfranchisement of some voters.

The Mission noted enthusiasm amongst those voting for participating in democracy but also noted the level of turnout at some polling stations, which could benefit from greater engagement in civic education for future elections.

The United Kingdom Observer Mission would like to thank all those involved in the process of supporting these elections, including the Independent Electoral Commission, members of civil society organisations, and fellow national and international observers.

## [Angler catches £389 penalty while fishing in Shropshire](#)

David Norman, 36, had a rod licence to fish using up to 2 rods. But he received a penalty of £389 for fishing without the correct licence to cover the number of rods he was fishing with at Marchamley Pool on 21 May.

The case was brought by the Environment Agency to Northampton Magistrates Court on Monday 26 September. The penalty of £389 includes a fine of £220, costs of £135 and a victim surcharge of £34.

Nichola Tomlinson, Fisheries Enforcement Team Leader at the Environment Agency, said:

David Norman has been rightly punished for fishing illegally in Hodnet, Shropshire in May this year. This case shows how seriously the courts take these offences and we hope the high penalty will act as a deterrent to any angler who is thinking of fishing without

a licence.

Fishing illegally can incur a fine of up to £2,500 and offenders can also have their fishing equipment seized. We inspect rod licences 24/7, to check on cases of illegal fishing.

Money raised from fishing licence sales is used to protect and improve fish stocks and fisheries, benefitting anglers and, for those caught cheating the system, we will always prosecute.

Any angler aged 13 or over, fishing on a river, canal or stillwater needs a valid licence to fish. A 1-day licence costs from just £6, and an annual licence costs from just £30 (concessions available). Junior licences are free for 13 to 16-year-olds. Licences are available from [www.gov.uk/get-a-fishing-licence](http://www.gov.uk/get-a-fishing-licence) or by calling the Environment Agency on 0344 800 5386 between 8am and 6pm, Monday to Friday.

The Environment Agency carries out enforcement work all year round and is supported by partners including the police and the Angling Trust. Fisheries enforcement work is intelligence-led, targeting known hot-spots and where illegal fishing is reported.

Anyone with information about illegal fishing activities can contact the Environment Agency incident hotline 24/7 on 0800 807060 or anonymously to Crimestoppers on 0800 555 111.
