

Press release: Planned roadworks in the North East: summary for Monday 20 to Sunday 26 March 2017

The following summary of planned new and ongoing road improvements over the coming week is correct as of Friday 17 March but could be subject to change due to weather conditions or unforeseen circumstances. All our improvement work is carried out with the aim of causing as little disruption as possible.

A1 junction 56 Barton to junction 51 Leeming Bar

There will be phases of overnight lane closures and full carriageway closures while work takes place to upgrade the road to motorway standards. There will also be narrow lanes and a 50mph speed restriction 24 hours a day. On Monday 20 and Tuesday 21 March there will be a carriageway closure northbound between junction 50 and Scotch Corner, and southbound between Scotch Corner and junction 51 as well as a southbound closure of the carriageway over Barton interchange with a diversion down and under the interchange.

On Wednesday 22 March there will be a carriageway closure northbound between junction 50 and Scotch Corner, and southbound between Scotch Corner and junction 51 as well as a southbound closure of the carriageway over Barton interchange with a diversion down and under the interchange and a partial closure of Scotch Corner interchange.

On Thursday 23 March there will be a carriageway closure northbound between junction 50 and Scotch Corner, and southbound between Scotch Corner and junction 51 as well as a southbound closure of the carriageway over Barton interchange with a diversion down and under the interchange. Then on Friday 23 March there will be a southbound closure of the carriageway over Barton interchange with a diversion down and under the interchange and a closure of the carriageway under Scotch Corner interchange with a diversion up and over the interchange and a partial closure of Scotch Corner interchange.

All these closures will take place between 8pm and 6am with diversions in place. From 8pm on Friday 3 March through to mid April the Junction 56 northbound exit slip will be closed 24/7 with a diversion.

A1 Blaydon Haugh Viaduct, junction 73 to junction 74, Newcastle upon Tyne

There is a 50mph limit in operation over Blaydon Haugh Viaduct due to the installation of temporary plates over defective viaduct joints. From Monday 20 to Friday 25 March there will be a carriageway closure southbound between 8pm and 6am. From 8pm on Saturday 26 March until 6am on Monday 27 March the southbound carriageway will be closed for the bridging plates to be removed. All these closures will take place with a diversion in place.

A1 Morpeth, Northumberland

There will be work ongoing until spring 2017 for the construction of a bypass. There will be various phases of daytime and night time lane and carriageway closures, with narrow lanes and a 40mph speed restriction in place. On Monday 20 and Tuesday 21 March there will be traffic signals in place southbound between 8pm and 6am.

A1 Berwick upon Tweed, Northumberland

There will be a carriageway closure with traffic signals in place north and southbound for resurfacing work. This will take place on Monday 20 and Tuesday 21 March between 8pm and 6am, with diversions in place.

A1 Warreners House to Earsdon, Northumberland

There will be convoy working in place north and southbound for resurfacing work. This will take place from Wednesday 22 to Tuesday 28 March between 8pm and 6am.

A19 Silverlink, North Tyneside

From Monday 20 March for five nights the A19 will be closed between 8pm and 6am with diversions in place for interchange improvement work. There will also be a 24 hour 30mph speed restriction with narrow lanes. This project is due for completion in March 2019.

A66 Long Newton, Stockton on Tees

There will be an off-peak lane closure in operation along the A66 westbound between Elton Interchange and Long Newton Interchange until Friday 24 March. It is anticipated that the works will be completed by Friday 31 March.

A66 Blands Corner, Darlington Bypass, County Durham

The circulatory will be closed for resurfacing work. This will take place from Saturday 18 to Monday 20 March between 8pm and 6am.

A66 Rokeby to Scotch Corner, North Yorkshire

There will be a carriageway closure east and westbound for barrier work. This will take place on Wednesday 22 March between 8pm and 6am, with diversions in place.

[News story: Nowruz 2017: Prime Minister's message](#)

I send my warmest wishes to everyone celebrating the festival of Nowruz in Britain, Iran and around the world.

At this time of year families and friends will be gathering to celebrate the New Year and mark the start of spring.

To everyone celebrating Nowruz in the UK – I wish you a happy, healthy and peaceful new year.

Har ruzetan Nowruz, Nowruzetan piruz.

[Press release: Prisons and Courts Bill to improve access to justice and better protect the vulnerable](#)

Plans to revolutionise the courts to make them more straightforward and efficient, and deliver swifter justice for victims, will be outlined by the Justice Minister Sir Oliver Heald QC today.

The Prisons and Courts Bill, which also contains a range of measures to help boost the reform of our prisons, will be debated by MPs in the House of Commons this week (week commencing 20 March 2017).

Measures in the ground-breaking Prisons and Courts Bill will mean that more cases can be progressed securely online and through video and telephone conferencing, eradicating the need for many administrative hearings to take place in the traditional courtroom setting and reducing the need for travel.

To ensure justice is also open and seen to be done, video booths will be installed in courts across England and Wales to allow members of the media and public to observe virtual hearings from court buildings anywhere in the

country. Lists and results of cases that have taken place online, as well as those concluded in a physical courtroom, will also be available digitally.

Justice Minister Sir Oliver Heald QC said:

Britain has the best justice system in the world, but it should also be the most modern. Victims and the most vulnerable are at the centre of our changes, which will help deliver swifter and more certain justice for all.

We want courts that are efficient and fit-for-purpose, with facilities across the entire estate that are modern, user-friendly, and work in favour of our hard-working and dedicated judges and magistrates.

The Prisons and Courts Bill underpins this vision – building on the good progress we have already made in improving the experience of all users and cementing our reputation for global legal excellence so victims get the justice they deserve as quickly as possible.

The Prisons and Courts Bill proposes an extension to the use of video links and virtual hearings which allow victims to take part in cases without having to meet their alleged attacker face-to-face.

Under our virtual hearings measures a further 60,000 pre-trial hearings in the magistrates' court and 17,000 contested bail hearings can also take place by video, along with 30,000 pre-trial hearings in the crown court. This will save around 34,000 hours of courtroom time. Proposals to introduce online convictions for some limited offences will also benefit the courts. Potentially around 8,000 offences – including 7,000 cases of people travelling without a train and tram ticket, and a further 1,300 cases of people fishing without a licence – could be handled online, taking away the need to be in a courtroom.

Bill measures will also mean around 420,000 summary and triable either way offences can be progressed without the need for administrative hearings to take place in a court. For example, offenders will be able to enter a plea online reducing the need to go to court until they need to attend trial or a hearing where they can be sentenced.

Discussions between the court and legal representatives about issues such as trial location will be able to take place via email or telephone or video conferencing, instead of being in a courtroom.

The government is also removing the requirement for indictable only offences to have a 'first appearance' in the magistrates' court, instead sending those cases straight to the crown court.

The Prisons and Courts Bill underpins our investment of over £1 billion for a modern justice system. The government is investing over £850 million to modernise and digitise the courts, and preserve the full majesty of the

physical courtroom for cases that require it, in addition to around £250 million to deliver a fully connected criminal courtroom. This will result in savings of £252 million a year for the taxpayer.

We will move from too many underused and badly maintained buildings to fewer, better buildings with modern facilities. More modern and robust technology will be put in place in courts, such as Wi-Fi, modern telephony and screens for sharing evidence, to make the lives of our excellent judiciary and legal professional users easier.

The Prisons and Courts Bill also provides courts with the power to put an end to domestic violence victims being cross-examined by their alleged attackers in the family courts, calling time on what the Justice Secretary has described as a “humiliating and appalling” practice.

Car insurance premiums will also be cut by around £40 a year, with new fixed tariffs capping whiplash compensation pay-outs and a ban on claims without medical evidence, helping to crack down on the compensation culture epidemic.

In addition, the legislation sets in law for the first time that a key purpose is to reform offenders as they are punished for the crimes they have committed.

Press release: Foreign Secretary appoints new GCHQ Director

Today Foreign Secretary Boris Johnson announced that Jeremy Fleming has been appointed to succeed Robert Hannigan as Director GCHQ, with the agreement of the Prime Minister.

Jeremy Fleming has been Deputy Director General of MI5 since 2013. He will succeed Robert Hannigan, who announced in January his decision to step down once a successor was in place. He will take up his post around Easter. The appointment was made following a recruitment process chaired by National Security Adviser Sir Mark Lyall Grant.

Announcing the appointment, the Foreign Secretary Boris Johnson said

Jeremy Fleming is a dedicated public servant whose work over two

decades in the intelligence services has helped to keep our country safe. I congratulate Jeremy on his appointment as Director of GCHQ at an important time for the service. I know that he will continue the excellent work of Robert Hannigan in leading this outstanding organisation, when the skill and ingenuity of the UK intelligence community are critical to defending Britain from cyber attacks, terror plots and other activities that threaten us and our allies.

National Security Adviser Sir Mark Lyall Grant said:

Jeremy Fleming emerged from a strong and competitive field as the outstanding candidate to become the next Director, GCHQ. He is a national security professional of the highest standard, who is widely respected across the national security community, in the UK and overseas. I would also like to thank Robert Hannigan for his excellent leadership of GCHQ over the last 3 years, including for the important role he played in preparations for the 2017 Investigatory Powers Act and in the setting up of the National Cyber Security Centre.

New GCHQ Director, Jeremy Fleming said:

It is a great privilege to be asked to lead GCHQ as it approaches its centenary in 2019. The organisation has a distinguished past and an increasingly important role to play in keeping Britain safe in the digital age. From managing cyber risks posed by nation states to preventing terror attacks, keeping our children safe online and supporting our Armed Forces, the exceptional men and women of GCHQ operate on the new frontline of global challenges.

I'd like to pay tribute to Robert Hannigan, who over the last few years has led GCHQ through the transformation of some of our most important national security capabilities. I look forward to building on his legacy and in particular, the role he has played in increasing the transparency of GCHQ's crucial work and in expanding its cyber mission through the work of the National Cyber Security Centre.

Outgoing GCHQ Director, Robert Hannigan said:

I'm delighted that the Foreign Secretary has appointed Jeremy Fleming to be the new Director. I've known Jeremy for many years and he is a great friend and colleague. He comes with deep intelligence experience and expertise.

Notes to editors

- **Jeremy Fleming biography:** Jeremy Fleming joined government from the private sector in 1993. He is a career MI5 officer with significant professional experience of national security and intelligence work, including international and Northern Ireland counter-terrorism, counter-espionage, cyber, and protective security. Jeremy joined the Board of MI5 in 2005 with responsibility for Technology. He was seconded to the Home Office in 2007 to be the Director of Strategy for the newly formed Office for Counter Terrorism and led on the revision of the Government's counter-terrorism strategy, CONTEST. On return to MI5, he became the Director for intelligence Collection, overseeing a significant uplift in digital capabilities. He was promoted to Assistant Director General in 2011 and led MI5's preparations for the London 2012 Olympics. Jeremy was appointed Deputy Director General of MI5 in April 2013, with responsibility for the agency's core operational work. He has played a lead role in shaping the organisation to disrupt the changing face of the threat from terrorist groups and hostile state actors.

[News story: UK troops arrive in Estonia for major NATO deployment](#)

Soldiers from the 5th Battalion The Rifles Battlegroup (5 RIFLES), including members of an Armoured Engineer Squadron, Military Police Detachment, Artillery Group and Port Task Group, arrived at Amari airbase last night.

They were welcomed by Estonia's Defence Minister Margus Tsahkna, having flown from RAF Brize Norton by Voyager aircraft.

The 120 soldiers are fundamental to setting up a UK headquarters in the country before the rest of the UK deployment arrives next month, increasing the total number of troops in Estonia to around 800.

Soldiers from the 5th Battalion The Rifles Battlegroup arrive at Amari airbase, Estonia.

The UK is taking a leading role in NATO's enhanced Forward Presence, alongside several other contributing nations. The deployments are designed to assure NATO allies of the mutual commitment to collective European security.

Working alongside the UK forces this year will be French personnel, and from next year, Danish partners. All are there at the request of the Estonian Government. The Battlegroup will provide a proportionate, defensive, and combat capable force to defend our NATO ally and deter any form of hostile activity against the Alliance.

An AS90 and a Challenger 2 tank being loaded onto cargo ship in the port of Emden, Germany, before deployment to Estonia.

The UK-led Estonia Battlegroup is one of four NATO multinational deployments to the eastern part of the Alliance. Other nations are deploying to Latvia, Lithuania and Poland, the last of which will include 150 UK personnel, on a persistent, rotational basis.

Defence Secretary Sir Michael Fallon said:

In the face of an increasingly assertive Russia, NATO is stepping up its commitment to collective defence. British troops will play a leading role in Estonia and support our US allies in Poland, as part of wider efforts to defend NATO.

Our rising defence budget means we can support those deployments in the long-term and strengthen our commitment to European security.

Commanding Officer of 5 Rifles Lieutenant Colonel Mark Wilson added:

The UK and Estonia have a long and proud history of serving together, including in Afghanistan, so it is an honour to lead 5 RIFLES on this deployment as part of NATO's enhanced Forward Presence. My soldiers are looking forward to again be working, training and exercising alongside their Estonian counterparts.

This week, around 300 UK vehicles have also departed to Estonia, including Warrior infantry fighting vehicles, Challenger 2 tanks and AS90 self-propelled artillery pieces. These vehicles, loaded onto a Roll-On-Roll-Off ferry, are currently on their way and set to arrive towards the middle of next week. French armoured vehicles, including tanks, are also due to arrive in Estonia via train after being loaded yesterday.

Personnel from the 5th Battalion The Rifles depart from RAF Brize Norton for Estonia.
