

News story: MOD partners with industry to promote UK prosperity

The MOD and Boeing are working together to build UK prosperity, growth, and exports across the country. As part of their commitment to the UK, Boeing signed the UK aerospace industry's Supply Chain Competitiveness Charter, which is designed to strengthen relationships between companies and their suppliers, so that they work together more effectively to raise UK productivity and competitiveness.

Highlights of the joint initiative so far include:

- A new commercial airline hangar to be constructed at Gatwick airport, supporting more than 100 jobs
- Collaboration on a new £100m P-8A operational support and training base at RAF Lossiemouth in Scotland, creating more than 100 new jobs
- Boeing facilitated a visit to Seattle for 37 UK suppliers to deepen their relationships with Boeing driving enhanced prosperity in the UK
- Training courses for UK suppliers on how to win additional business with the company, further enhancing the competitiveness of the UK supply chain
- Education partnerships with the Royal Academy of Engineering and the RAF Air Training Corps in Northern Ireland, which reached more than 5,000 young people in the UK last year

Minister Harriett Baldwin said:

Britain's defence industry plays a key role delivering an economy that works for everyone. Across the UK, Britain's defence companies provide highly skilled, well-paid jobs with world class manufacturing exports.

Boeing expects to increase their UK workforce by 50% by 2020. This joint initiative is a prime example of the cutting edge, high-skilled, job-creating investment that our industrial strategy seeks to harness to make Britain one of the most competitive places in the world to innovate, build businesses and deliver secure, long-term prosperity for all.

The government's Industrial Strategy will seek to make fresh choices about how the UK shapes its economy and presents an opportunity to deliver a bold, long term Industrial Strategy that builds on strengths and prepares for the years ahead. Following a period of consultation, the government intends to publish an Industrial Strategy white paper in 2017 that will set out the plan for full and long term delivery.

Marc Allen, president of Boeing International, said:

Boeing's partnership with the UK, which dates back to the 1930s, goes from strength to strength today. Boeing values the UK's aerospace and defence capabilities. In both 2015 and 2016 Boeing in the UK hired, on average, a new employee per day and our relationship with the UK supply chain today has more than doubled in value since 2011.

This growth continues in 2017 and beyond, with further significant announcements to follow in the future, building on our initiative's achievements already in place.

There is much more to come from the strategic prosperity initiative. During their meeting Minister Harriett Baldwin and Marc Allen looked ahead to the next six months of collaboration:

- Boeing will increase bid opportunities for UK suppliers and work with the government to enhance UK competitiveness. The aim is for UK companies to double their supply work with Boeing and win higher proportions of content on future Boeing aircraft.
- Boeing will make the UK its European base for training, maintenance, repair and overhaul across its defence fixed-wing and rotary platforms.
- Boeing will make the UK a base for defence exports to Europe and the Middle East, increasing UK employment and investment.

Press release: UK and Japan strengthen defence ties

The UK and Japan have today (26 January 2017) signed the Defence Logistics Treaty to make it easier for our armed forces to work together on a range of activities, including UN peacekeeping operations and joint humanitarian aid

and disaster relief missions.

This agreement follows the success of the first ever joint exercise in Japan between the Royal Air Force and the Japan Air Self-Defense Force during last year's historic [Asia-Pacific tour](#).

This was another example of our ever closer defence cooperation with Japan as the UK's closest security partner in Asia.

The agreement includes practical arrangements that will allow both countries' forces to share equipment, facilities and services in a simpler and more efficient way. It covers the exchange of supplies and services, removing the need for individual agreements on a case by case basis.

Signing the treaty at the Foreign and Commonwealth Office, the Foreign Secretary Boris Johnson said:

The UK is working together with Japan as our closest security partner in Asia to promote global security, stability and prosperity. As two leading supporters of the international rules based system, this close collaboration between our forces will help support collective efforts to tackle international and regional challenges and threats.

Defence Secretary Sir Michael Fallon welcomed the agreement and said:

Japan is an important British ally and this treaty will enable closer joint work on operations and exercises, including sharing equipment, supplies and services. As Global Britain steps up, we will continue to stand alongside our Japanese friends to meet shared interests and challenges. This agreement underlines our commitment to tackling international threats which makes Britain safer and more secure.

Japan's Ambassador to the UK, Koji Tsuruoka, who signed the treaty on behalf of the Government of Japan, said:

This treaty marks a significant moment in Japan's security and defence relationship with the UK, Japan's close partner that shares fundamental values such as the rule of law and democracy. The two countries will work together on security cooperation, as well as other global issues in this changing world.

Further information

Photographs of the signing are available at [Foreign and Commonwealth Office Flickr](#)

The Defence Logistics Treaty is also referred to as an Acquisition and Cross Servicing Agreement (ACSA). It was a commitment of the [second 2+2 Foreign and Defence Ministers' meeting](#) in January 2016, when Japan also agreed to host RAF Typhoons in October 2016 in an historic joint air force exercise – the country's first ever with a military partner other than the USA.

UK-Japan defence and security cooperation is going from strength to strength. The UK and Japan continue to develop new defence technologies, with a particular focus on missile technology. 2016 also saw our cooperation in third countries expand from South East Asia to Africa.

As Japan prepares to host the 2020 Olympic and Paralympic Games, our cooperation on cyber security is also expanding. Japan's Olympics Minister, Tamayo Marukawa visited the UK in January to discuss the UK's cyber expertise from London 2012 and the UK's experience of crisis preparedness in managing large sporting events.

[Press release: Defence industry called to tackle enduring challenges](#)

Minister for Defence Procurement Harriett Baldwin launched the Innovation Initiative's £6m Accelerator Enduring Challenge today, seeking to fast-track the innovative ideas which will keep the UK and its Armed Forces safe and secure.

Cutting-edge ideas like the life-saving device being developed by the University of Strathclyde to minimise blood loss in severely injured personnel; and 2iC's state-of-the-art work on secure data exchange between soldiers, vehicles, and bases and between coalition partners and allies. The MOD's investment in such innovative solutions demonstrates how the government is ensuring our Armed Forces have the most effective and innovative capability available.

The £6m Enduring Challenge is run by the MOD's new Defence and Security Accelerator and will fast-track the best ideas by funding their development, matching suppliers with expert Innovation Partners, and boosting supplier access to defence. The competition will run regularly, with up to 12 rounds a year.

Opening the competition in London, Minister for Defence Procurement, Harriett Baldwin, said:

The Accelerator Enduring Challenge is another important step in our Innovation Initiative's aim to transform defence. Backed by a rising defence budget and our £800m Innovation Fund, the Innovation Initiative is transforming Defence's creative culture.

We are challenging academics and businesses of all kinds to innovate, cooperate, and build mutual security and prosperity as the UK develops its ambitious Industrial Strategy to ensure an economy that works for everyone.

The launch event in London brought together researchers, entrepreneurs, innovation centres, small and medium-sized enterprises, the defence industry and international allies to build the collaborative approach which will deliver cutting-edge defence technology.

The Accelerator Enduring Challenge builds on the previous Centre for Defence Enterprise (CDE) Enduring competition by increasing funding and access to government. £6m will be available for the first year of the Enduring Challenge, which includes a second phase of new funding. The first phase will look at ideas in their early stages, while the second phase will nurture promising projects, as well as offering an alternative route for more advanced ideas and technologies.

Acting Head of the Accelerator, Rob Solly, said:

Through the Enduring Challenge we are hoping to reach out to a wide supply base, which can provide us with innovative ideas that challenge our ways of thinking and operating. We will then work with selected suppliers to support them in their development towards market delivery.

The first competition of the Accelerator Enduring Challenge is now open, with a deadline of 5 April 2017 to submit proposals. The competition will then operate on a regular basis with up to 12 rounds per year.

More information is available on the [Accelerator's website](#).

[News story: UK and US strengthen maritime aviation cooperation](#)

Minister for Defence Procurement Harriett Baldwin today signed a P-8A Maritime Patrol Aircraft (MPA) declaration with her United States counterpart, Deputy Secretary of Defense Bob Work to further strengthen the uniquely close defence relationship between the United Kingdom and the United States.

In 2019 the UK will receive delivery of its first Poseidon P-8A aircraft and both nations have committed to deepen their defence cooperation when operating in the North Atlantic region. Through seeking opportunities to share logistics and support bases and optimise the use of P-8A aircraft, particularly in Europe, the declaration should ensure increased value for money and operational effectiveness.

Minister for Defence Procurement Harriett Baldwin said:

The United States is our pre-eminent Ally in global defence and collective security. This declaration is further evidence of how our two countries continue to cooperate and build mutual security, particularly in the North Atlantic region.

Backed by a rising defence budget and a £178 billion Equipment Plan, the P-8A programme will provide us with enhanced surveillance capabilities.

As leading members of NATO, the UK and US are committed to the collective defence of each other and their Allies. We have also pledged to deepen defence cooperation, bilaterally and within the Alliance, to further improve the ability to operate together in exercises and operations.

The declaration provides a new opportunity to maximise value for money for

the taxpayer and continue to strengthen UK-US interoperability and to pursue efficiencies in operations and support, including at RAF Lossiemouth in Scotland, where the P-8A will bring some 400+ jobs. The Department of Defense and Ministry of Defence plan to cooperate closely on operation of their P-8A aircraft in the North Atlantic to ensure a coherent approach to MPA activity.

Delivering on the commitment of the 2015 Strategic Defence and Security Review, the UK is purchasing nine Boeing P-8A Poseidon MPAs to be based in RAF Lossiemouth, Scotland. The aircraft will add to the UK's surveillance capabilities, including conducting anti-submarine and anti-surface warfare, search and rescue and intelligence gathering.

Defence Minister Harriett Baldwin meeting Bob Work in September 2016

Deputy Secretary of Defense Bob Work said:

Today's signing of the Declaration on P-8A Poseidon Bilateral Cooperation exemplifies the importance and strength of the US-UK partnership.

This cooperation agreement ensures and deepens our interoperability and maritime patrol capabilities. Together, the US and UK will continue to deter regional threats and maintain a robust military posture.

With the first P-8A aircraft due to arrive in the UK in 2019, the RAF has ensured that we have maintained the skills needed to operate these MPAs

through the 'seed-corn' programme, which has embedded former RAF MPA operators within the MPA squadrons of Australia, Canada, New Zealand and the USA.

Air Commodore Ian Gale, Senior Responsible Owner for the Poseidon P-8A programme, said:

This agreement will enhance the UK's maritime patrol capability and further strengthen UK-US defence relations. The arrival of the Poseidon P-8A in 2019 will provide the UK with significantly increased capabilities and bring hi-tech employment to Scotland and the wider UK.

This agreement follows Defence Secretary Sir Michael Fallon's [recent visit to Norway](#), where he also committed to cooperate on Maritime Patrol Aircraft operations, ensuring that the UK will continue to play a key role in delivering collective maritime security across the globe.

News story: UK Government leads Burns Night celebrations around the world

Scottish Secretary David Mundell and Foreign Office Minister Sir Alan Duncan will host tonight's reception, where guests will be welcomed by bagpipes, enjoy a whisky tasting, and listen to Scottish folk singer Katy Thompson, who will perform 'My Heart is in the Highlands' and 'My Love is Like a Red Red Rose'. In addition, Ryan Hunter, 2nd year BA Acting student from at the Royal Academy of Dramatic Art, will recite Burns' poem 'A Mans A Man for A' That'.

Address to a Haggis

The video shows UK Government staff and Scottish service personnel including Major Jonny Rourke, Lieutenant Colonel Gordon Mackenzie, Bombardier Steven Cunningham and Chief Petty Officer John Boyle reciting Burns' most famous work, the 'Address to a Haggis'.

Secretary of State for Scotland, David Mundell said:

This week the whole country will celebrate the life and work of Robert Burns, one of Scotland's greatest cultural icons. His works are justly famous right across the globe. From Ayrshire to Atlanta, and from Cumbernauld to Canberra, on Wednesday Burns' work will be celebrated in homes and Burns societies all over the world.

Burns' legacy remains relevant around the world, and as someone from Dumfries, Burns has always played an important part in my life. On Burns Night, I will be promoting Scotland's fine produce at a reception with the Foreign and Commonwealth Office. And, of course, toasting the Bard with a wee dram of "guid auld Scotch."

Foreign Office minister Sir Alan Duncan said:

The clue is in the name – my father and many Duncans before us were born and brought up in Wick, Caithness, so I'll be in my Duncan tartan tonight.

Burns' enduring global influence demonstrates the impact of Scottish culture around the world and I know that Burns night will be celebrated all over – not just by British troops, embassies, aid workers and expats, but by people from many countries throughout the world. It shows us that Burns' appeal is as strong as ever.
