'We can look to the future with optimism and patience'

Vaccines have changed our world. They have been successfully deployed against a wide range of diseases including smallpox, polio, measles and flu. They have saved many millions of lives.

So the confirmation of the UK's first regulatory approval for a Covid-19

vaccine is hugely significant.

The decision by the Medicines and Healthcare products Regulatory Agency (MHRA) has only been taken after rigorous assessment of both safety and effectiveness.
