

Thank you Wokingham

I would like to thank all those who supported me in the election.

I will take up those issues which many of you stressed to me mattered, in the new Parliament.

I promised to work hard for policies which advance the country's prosperity, and to work with the Council on the many local planning, environmental and transport issues which affect our daily lives in the area.

I also wish to reassure those Remain voters who voted for parties offering a second referendum that I have every belief that we can be better off out of the EU. I know many of you are concerned that the UK will lose income and wealth from our exit. I am setting out policies that promote greater growth as we leave, in part by using freedoms we gain and in part by changing the economic policy successive governments have been following whilst in.

I will of course wish to represent you all to the best of my ability. Where you have legitimate worries about policy direction and government management I will seek to find ways to make things better.
