

Transparency data: CoRWM visit to Konrad mine, Germany, June 2018

As part of CoRWM's outreach activities for 2018 to 2019, a group of CoRWM members visited Germany in June 2018 to tour the Konrad mine and discuss approaches to siting a geologic disposal facility (GDF).

The group was hosted by the Federal Office for the Safety of Nuclear Waste Management (BfE), headquartered in Salzgitter, Germany.
