

[Green Party: Budget cuts and Brexit combined could bring UK to its knees](#)

28 February 2017

The Green Party has responded to news Government departments will face yet more cuts [1].

Jonathan Bartley, Green Party co-leader, said:

“The Government is already asking its departments to do the impossible, with demands they do more with less, which is stretching the country to breaking point. By forcing through yet more cuts the Government is creating an ever increasing downward spiral, exacerbating need but removing the means to deal with it.

“The Conservatives are already punishing local authorities for its Government’s own failure, with the crisis facing social care just one example of the damaging impact its budget slashing is having on people who need help and support the most.

“Add into this mix the demands of Brexit and it is almost impossible to see how the country will not be brought to its knees.”

[Green Party: Government is targeting disabled to balance its books](#)

27 February 2017

The Green Party is deeply concerned by proposed changes to PIP payments, which will affect more than 160,000 people [1].

George Freeman MP defended the proposal by saying disability benefits should go to “really disabled people” not those “taking pills at home, who suffer from anxiety” [2].

Jonathan Bartley, Green Party co-leader, said:

“The Government by its own admission is targeting the disabled to try to balance its books. This ruthless and underhand move is designed simply to cut disability benefits, regardless of the impact on people’s lives.

“The Government is deliberately going against the two tribunals that ruled the payments should have more reach, not less. George Freeman’s defence of these changes was appalling and revealed a lack of understanding and nothing less than discrimination against people who face serious health conditions like anxiety. His comments are part of the terrible stigma that still exists around mental health, and reinforces it.

“With the Spring Budget approaching the Government should urgently reconsider its plans. This will hurt thousands of people, put up more social barriers and restrict them from going about their daily lives. Disabled people should not be penalised and forced to pay for a budget deficit which they did not create.”

Mags Lewis, Green Party disability spokesperson, said:

“Disabled people are already on the brink, having faced vicious cuts, confusing benefit changes, and Government indifference. Now the Government is planning to change the goal posts yet again. As a disabled person, I know these constant onslaughts cause anxiety, hardship, and terror to disabled people’s lives. Why are we seen as an easy target for cuts? We must unite against this onslaught, fight in the courts and be heard by our Government. Enough is enough.”

[No new runways is still the only option, reveals new report on Heathrow](#)

expansion

23 February 2017

Keith Taylor MEP: “Today’s report is an important reminder that campaigners have been right all along; Heathrow expansion is still a climate-wrecking decision that is bad for the British people and the planet.”

The Government is still not able to demonstrate that it can mitigate the destructive environmental impacts of a new runway at Heathrow, according to a [report published today](#) by the Environmental Audit Committee.

The report on Heathrow expansion reveals the Government is still failing to take into account major concerns about the air pollution, carbon emissions and noise pollution effects of expansion.

Responding to the findings Keith Taylor, Green MEP for the South East and a member of the European Parliament’s Environment Committee, argued that the report was further proof that ‘Heathrow expansion is an unnecessary environmental disaster in waiting’.

Mr Taylor, a vocal anti-airport expansion activist who has written about the [legal difficulties](#) a third runway will face, said:

“Today’s report is an important reminder that campaigners have been right all along; Heathrow expansion is still a climate-wrecking decision that is bad for the British people and the planet.”

“The report reveals that the Government has paid little consideration to the triple threat of unacceptable environmental risks the prospect of a new runway brings with it, from air pollution to carbon emissions and noise pollution.”

“A new runway will breach legal air pollution limits and further worsen an air quality crisis that the Government is already [failing to tackle](#). And there is still no answer forthcoming on any plan to reduce current levels of air pollution which are responsible for the unnecessary [deaths of 50,000 people in Britain](#) every year.”

“Expansion will bust Britain’s carbon budgets and make a mockery of Theresa May’s legal-binding commitments under the Paris Agreement. Astonishingly, the Government’s response appears to be its willingness to water down already dangerously-lax limits on aviation emissions, despite the recommendations of its own advisors.”

“Thousands of local residents will be appalled to read today’s report only to discover that not only will a third runway ensure the air they breathe is about to get more toxic but the Government has no plans to tackle the cacophony of noise pollution that expansion promises.”

“There are no two ways about it; expansion is a disastrous decision for the people of the South East, London, Britain, and the planet. Britain’s ‘airport capacity crisis’ is, and always has been, a dangerous myth driven by corporate greed, not by actual need. Not only is all but one airport in the UK operating under capacity, sponsoring the exponential growth of an aviation industry that is a [top-ten global polluter](#) is wholly incompatible with Britain’s Paris climate agreement commitments.”

[Greens warn of NHS disaster after EEA doctors say they may leave UK](#)

23 February 2017

The Green Party is urging the Government to reassure EU nationals they are welcome in the UK after a survey revealed 12,000 EEA-trained doctors may leave in light of the Brexit vote [1].

Jonathan Bartley, Green Party co-leader, said:

“The potential for EU nationals to be treated like bargaining chips in Brexit negotiations, is all too apparent in these figures. The Government’s rhetoric and failure to provide assurances have had a clear impact on doctors’ lives.

“The NHS is already under immense pressure and if such a large number of staff leave in such a short space of time it will be a complete disaster. The Government needs to recognise the incredible contributions EU nationals make to our society and give concrete reassurances they can continue the lives they’ve built in the UK.”

[Green Party disappointed as Government speeds towards HS2](#)

23 February 2017

***Caroline Russell AM: “The Government must be held to account over its terrible decision to squander our limited resources”**

The Green Party is disappointed the HS2 Bill will receive royal assent today [1] and has pledged to keep standing up for the environment and local communities.

Caroline Russell, Green Party transport spokesperson and London Assembly Member, said:

“Today is a sad day for campaigners who have worked tirelessly to stop this wasteful project going ahead, but we’ll keep on fighting to protect the local communities and environment from the damage threatened by HS2.

“The risks far outweigh any potential benefits and it’s staggering so much money will be poured into HS2 when better transport projects improving local rail networks desperately need investment. The Government must be held to account over its terrible decision to squander our limited resources on a project that will save only a few minutes on trips between London and Birmingham.”
