Readout – Senior EU delegation representative summoned to the FCDO

News story

A senior representative of the EU's delegation to the UK was summoned to the Foreign Commonwealth & Development Office this morning.

An FCDO Spokesperson said:

This morning a senior representative of the EU's delegation to the UK was summoned to a meeting with the Permanent Under-Secretary of the Foreign Commonwealth and Development Office to discuss the issue of incorrect assertions in recent EU communications.

New UK Government Covid testing centre opens in Glasgow Govan

The UK Government has today, Wednesday 10 March, opened a new walk-through coronavirus testing centre as planned at Ibrox Football Centre in Glasgow

Govan (G51 2XP).

The test centre is part of the largest network of diagnostic testing facilities created in British history. In Scotland, this comprises of eight drive through sites, 34 walk-through sites, 42 mobile units, plus the Glasgow Lighthouse Lab which is working round the clock to process samples.

In Scotland, the UK Government is providing all COVID testing and test processing outside of the NHS. Around two thirds of all daily tests are provided by the UK Government, in support of Scotland's health services.

Tests must be booked in advance at: [NHS Inform](#) or by calling 0800 028 2816. People should only book at test if they have coronavirus symptoms (a high temperature, a new and continuous cough, or a loss or change to their sense of smell or taste).

Health Minister Lord Bethell said:

To respond to the coronavirus, we have built a major testing and tracing system from scratch. We are constantly working to expand and improve it with new technologies and innovations so everyone with symptoms can get a test.

New walk-in sites like this one makes it even easier to get a test no matter where you live. If you have symptoms of coronavirus, I urge you to book a test today and follow the advice of NHS Test and Protect if you are contacted to protect others and stop the spread of the virus.

Baroness Dido Harding, Interim Executive Chair of the National Institute for Health Protection, said:

Walk-through sites offer communities better access to coronavirus testing, so everyone with symptoms can get a test. This new site is part of our ongoing work to expand our testing network across the UK which now has the capacity to process more than 700,000 tests a day. We will continue to expand capacity to improve test turnaround times and push forward testing innovations to make sure anyone who needs a test can get one.

Please book a test if you have coronavirus symptoms: a new continuous cough, a high temperature and a loss or change in sense of smell or taste, and follow the advice of NHS Test and Protect if you are contacted.

UK Government Minister for Scotland, Iain Stewart said

The UK Government is doing everything it can to support people in

all parts of the UK through the pandemic.

Testing continues to play an important role how we manage the virus alongside the roll out of vaccines, helping to identify local outbreaks, slow down the rate of transmission and protect communities. I would like to thank the public for continuing to do the right thing and come forward to be tested when they display symptoms.

The UK Government continues to provide the bulk of testing in Scotland, with this new walk-through centre in Glasgow just the latest in our extensive network. We have also secured and paid for millions of doses of the Pfizer and Oxford vaccines for all parts of the UK.

Hope is on the horizon, but we can't let up on our efforts to contain the virus.

Dr Linda De Caestecker, Director for Public Health at NHS Greater Glasgow and Clyde, said:

We'd like to thank all of the staff involved in setting up and operating testing sites across NHS Greater Glasgow and Clyde. We welcome the addition of another testing centre to support this existing network. Making testing centres local and easy to access is a very important part of helping us to control and minimise the spread of the virus across our communities.

Simon Venn, Mitie Chief Government & Strategy Officer, said:

Our priority during the pandemic is to support the nation's efforts to fight COVID-19 and help keep the country running. Testing is a critical part of the UK's strategy to combat coronavirus and we're proud to support the UK Government with this vital task. A big thank you to all the NHS staff, Mitie employees and other frontline heroes in Glasgow, who are working tirelessly to keep us all safe.
