

# Contingencies fund advance: 17 December 2020

I hereby give notice of the Department for Transport having drawn advances from the contingencies fund totalling £5,808,000,000 to enable expenditure on COVID-19 support packages to be spent ahead of the passage of the Supply and Appropriation Act. The schemes include:

Parliamentary approval for additional resources of £4,574,000,000 and additional capital of £1,234,000,000 will be sought in a supplementary estimate for the Department for Transport.

Pending that approval, urgent expenditure estimated at £5,808,000,000 will be met by repayable cash advances from the [Contingencies Fund](#).

The cash advance will be repaid upon receiving Royal Assent of the [Supply and Appropriation \(Anticipation and Adjustments\) Bill](#).

# Tay Cities Deal signed

The Tay Cities Deal reached a major milestone today [17th December 2020] when UK Government Minister Iain Stewart joined partners for an online ceremony to ratify the implementation and financial arrangements for £700 million investment in the region.

The deal is an agreement between the UK and Scottish governments along with Angus, Dundee City, Fife and Perth & Kinross councils as well as partners in the business and higher and further education sectors.

The UK and Scottish governments are each investing £150 million, which will help to leverage a further £400 million of investment from public and private partners. This will be transformative for the region, driving investment, boosting the economy and creating more than 6,000 jobs.

UK Government Minister Iain Stewart said:

Today's landmark signing will deliver transformative investment to the entire Tay region, including £150 million from the UK Government.

The deal will create thousands of jobs through innovative projects such as cutting-edge forensic science at the University of Dundee and a drone port at Montrose in Angus.

Investments in Perth City Hall transformation and Innerpefferay Library, Scotland's oldest lending library, will also enhance the region's culture and tourism offering.

This is the seventh Full Deal we have signed in Scotland and we now have deals in implementation or development for all of Scotland, representing investment from the UK Government of over £1.5 billion.

At the Spending Review in November the Chancellor, Rishi Sunak, announced that the UK Government's funding for the deal would be delivered over 10 years instead of 15, which will help projects to be delivered sooner.

The Tay Cities Deal projects aim to place the region at the forefront of innovation, technology and connectivity.

The UK Government is investing £150 million in 16 projects, all of which are subject to final approval of robust business cases:

- £15 million for 'Just Tech' the world's first institute for forensic science innovation, at the University of Dundee
- £ 5.7 million for cyberQuarter, a cyber-security centre of excellence at Abertay University

- £ 8.1 million for the Aviation Academy for Scotland
- £20 million for the International Barley Hub at the James Hutton Institute
- £25 million for the Advanced Plant Growth Centre at the James Hutton Institute
- £5.2 million for the creation of an advanced plastics recycling facility capable of treating all waste plastic types
- £5 million for Perth Innovation Highway that will support business development at the planned Perth Eco Innovation Park
- £10 million for the transformation of Perth City Hall into a new museum and potential home for the Stone of Destiny
- £24.5 million for the Eden Campus, a Centre of Excellence in Low Carbon and Renewable Energy innovation at the University of St Andrews. Plus a further £300,000 for the Stretch Dome Simulator that can be used to test research and innovation in areas like climate change
- £2 million for rural high speed broadband in Angus and in Perth & Kinross. This will be enhanced by a further £5.9 million from the UK Government Local Full Fibre Network programme.
- £5.6 million to promote North Angus and Montrose as a clean growth zone
- £5.9 million for low carbon projects in Angus
- £15 million for the development of agritech in Angus
- £100,000 for developing Innerpefferay library, Scotland's oldest lending library
- £1 million for the Crief International Highland Centre
- £1.6 million for AERO SPACE Kinross

## [Foreign flagged ships detained in the UK during November 2020](#)

During November, there were five new detentions of foreign flagged vessels in a UK port.

1. In response to one of the recommendations of Lord Donaldson's inquiry into the prevention of pollution from merchant shipping, and in compliance with the EU Directive on Port State Control (2009/16/EC as amended), the Maritime and Coastguard agency (MCA) publishes details of the foreign flagged vessels detained in UK ports each month.
2. The UK is part of a regional agreement on port state control known as the Paris Memorandum of Understanding on Port State Control (Paris MOU) and information on all ships that are inspected is held centrally in an electronic database known as THETIS. This allows the ships with a high

risk rating and poor detention records to be targeted for future inspection.

3. Inspections of foreign flagged ships in UK ports are undertaken by surveyors from the Maritime and Coastguard Agency. When a ship is found to be not in compliance with applicable convention requirements, a deficiency may be raised. If any of their deficiencies are so serious, they have to be rectified before departure, then the ship will be detained.
4. All deficiencies should be rectified before departure.
5. When applicable, the list includes those passenger craft prevented from operating under the provisions of the EU Directive on a system of inspections for the safe operation of Ro-Ro passenger ships and high-speed passenger craft in regular service and amending directive 2009/16/EC and repealing Council Directive 1999/35/EC (Directive EU 2017/2110).

Notes on the list of detentions:

- Full details of the ship: The accompanying detention list shows ship's International Maritime Organisation (IMO) number which is unchanging throughout the ship's life and uniquely identifies it. It also shows the ship's name and flag state at the time of its inspection.
- Company: The company shown in the vessel's Safety Management Certificate (SMC) or if there is no SMC, then the party otherwise believed to be responsible for the safety of the ship at the time of inspection.
- Classification society: The list shows the classification society responsible for classing the ship only.
- Recognised organisation: Responsible for conducting the statutory surveys: and issuing statutory certificates on behalf of the flag state.
- White (WL), grey (GL) and black lists (BL) are issued by the Paris MoU on 01 July each year and shows the performance of flag state.
- Deficiencies: The deficiencies listed are the ones which were detainable. Further details of other deficiencies can be provided on request.

## [Test facility speeds progress](#)

News story

Preparations are well underway on the new integrated test facility for the Steam Generating Heavy Water Reactor at Winfrith Site.

The large test frame will be used to test and trial key pieces of equipment which will then be used for decommissioning the reactor core.

This includes the performance of the mast mounted manipulator, as well as other key core segmentation equipment and tooling such as the Titan robot, remotely operated diamond wire saws, free standing cutting stations, and a host of other size reduction tools designed and developed by principal contract partner JFN Ltd. The off-site testing frame is based at JFN's Caithness facility.

Take a look at this time lapse video, which shows at speed the delivery and

installation of the central control room, erected from four ISO containers with walls removed, to provide a spacious open control room.

## [Police to receive more than £15 billion to fight crime and recruit more officers](#)

Policing will receive up to £15.8 billion to build back safer and cut crime, the government will announce today.

The 2021 to 2022 funding package will include over £400 million to recruit 20,000 extra officers by 2023, building on the success of the first year of the recruitment campaign – which has already delivered almost 6,000 additional police officers.

Alongside getting more officers out on the street, the funding settlement will enable policing to tackle serious violence and increase the number of specialist officers tackling terrorism and serious organised crime, including child sexual abuse and drug trafficking.

The 2021 to 2022 funding package means an increase of up to £636 million on last year, should police and crime commissioners (PCCs) take full advantage of police precept flexibility.

Home Secretary Priti Patel said:

We have asked more of the police than ever before during the coronavirus pandemic – the British people and I are extremely grateful for their dedication.

I am absolutely committed to giving the police the resources they need – this funding package delivers on that.

It will allow us to continue to put more police on the streets, and reduce crime as we build back safer from the pandemic.

Funding for Counter-Terrorism policing will total up to £914 million, including money for armed policing and more officers. In addition, Counter-Terrorism policing will receive £32 million to establish a new Counter-

Terrorism Operations Centre to keep the country safe from a range of threats.

The government also recognises that, during the coronavirus pandemic, huge demands have been made of the police.

That is why it has provided additional support throughout, including £30 million of surge funding to help forces step up COVID-19 enforcement activities in 2020 to 2021, and why it reimbursed all additional personal protective equipment (PPE) purchased between March and July.

Huge demands have also been made on the public, the vast majority of whom have been following the rules to help keep everyone safe. Just as police will continue to enforce the regulations, the public should continue to do their bit to stop the spread of the virus.

The publication of the provisional funding settlement opens a period of consultation. The final police funding settlement will be debated in Parliament ahead of the new financial year.

[1] Total resource funding consists of core grant funding, National and International Capital City (NICC) grants, Legacy Council Tax grants, Precept grant, Pensions grant, police precept and ringfenced grant (for £100 million). Precept figures use actual precept figures for 2020/21, assume that PCCs in England and Wales increase their precept Band D level by £15, and Office of Budget Responsibility forecast tax base increases.

[2] Funding in 2020/21 does not include any additional in-year support provided for Covid-19 and assumes all forces maximised their ringfenced grant allocation. Figures may not sum due to rounding.
