

Press release: Foreign flagged ships detained in the UK during March 2018

During March, there were four new detentions of foreign flagged vessels in a UK port, four vessels remained under detention from previous months. A total of four vessels remain under detention at the end of March.

1. In response to one of the recommendations of Lord Donaldson's inquiry into the prevention of pollution from merchant shipping, and in compliance with the EU Directive on Port State Control (2009/16/EC as amended), the Maritime and Coastguard agency (MCA) publishes details of the foreign flagged vessels detained in UK ports each month.
2. The UK is part of a regional agreement on port state control known as the Paris Memorandum of Understanding on Port State Control (Paris MOU) and information on all ships that are inspected is held centrally in an electronic database known as THETIS. This allows the ships with a high risk rating and poor detention records to be targeted for future inspection.
3. Inspections of foreign flagged ships in UK ports are undertaken by surveyors from the Maritime and Coastguard Agency. When a ship is found to be not in compliance with applicable convention requirements, a deficiency may be raised. If any of their deficiencies are so serious they have to be rectified before departure, then the ship will be detained.
4. All deficiencies should be rectified before departure if at all possible.
5. When applicable, the list includes those passenger craft prevented from operating under the provisions of the EU Directive on Mandatory Surveys for the safe operation of regular Ro-Ro ferry and high speed passenger craft services (1999/35/EU).

Notes on the list of detentions

- Full details of the ship. The accompanying detention list shows ship's International Maritime Organization (IMO) number which is unchanging throughout the ship's life and uniquely identifies it. It also shows the ship's name and flag state at the time of its inspection.
- Company. The company shown in the vessel's Safety Management Certificate (SMC) or if there is no SMC, then the party otherwise believed to be responsible for the safety of the ship at the time of inspection.

- Classification Society. The list shows the Classification Society responsible for classing the ship only.
- Recognised Organisation. Responsible for conducting the statutory surveys: and issuing statutory certificates on behalf of the Flag State
- White (WL), Grey (GL) and Black lists (BL) are issued by the Paris MoU on 01 July each year and shows the performance of flag State.

Press release: British High Commission hosts Commonwealth Big Lunch ahead of the Commonwealth Heads of Government Meeting

HE Sarah Cooke in a selfie with school girls from Unubini and Tandale Primary Schools

The Big Lunch was the culmination of events in Tanzania ahead of the 2018 Commonwealth Heads of Government Meeting to be held in the London from 16th to 20th April 2018.

The Meeting will see up to 53 Commonwealth Heads of Government and representatives discuss key issues under the theme of “Towards a Common Future”.

Today’s Tanzania Commonwealth Big Lunch enabled young female students from the Msichana Initiative Girls Clubs in Unubini Primary School and Tandale Primary School in Dar es Salaam to receive mentorship and advice from some of the most successful and influential women in Tanzania.

The British High Commissioner, HE Sarah Cooke, stated

The Commonwealth Heads of Government meeting taking place in London next week will focus on delivering a fairer and more prosperous, secure and sustainable future for the Commonwealth. I am delighted to invite the young students from the Msichana Initiative Girls Clubs to today’s Big Lunch and connect them with inspirational mentors. One billion Commonwealth citizens are under the age of 25, so it is particularly important that the Commonwealth speaks to the challenges its young people face and answers their ambitions for a better life.

The lunch culminated with HE Sarah Cooke presenting the Commonwealth Point of Light Award to Petrider Paul, who was selected by Her Majesty Queen Elizabeth II. Petrider is a gender equality activist and was awarded for her exceptional voluntary service campaigning against child marriage and gender-based violence.

I am delighted to present Petrider with the Point of Light Award on behalf of Her Majesty Queen Elizabeth commented HE Sarah Cooke. She is an inspiration not only to the young students here today but all young girls and women across Tanzania and the Commonwealth.

Also speaking at the event was Ms. Rebeca Gyumi, founder and Executive Director of Msichana Initiative who recently received the Human Rights Defender award from the UK Government, she said,

We will not consider ourselves successful until we have reached every girl. We do not want to leave anyone behind. I’m happy to see young girls sharing their dreams and aspirations with some of the most remarkable women in Tanzania, this should continue even in our individual spaces, that’s how we build strong communities

Press release: Government consults on proposals to toughen rules on building safety

Tough new rules designed to strengthen fire testing for cladding systems on residential buildings were published for consultation today (11 April 2018) by Housing Secretary Sajid Javid.

The consultation, which aim to improve building safety, will look at restricting or banning the use of 'desktop studies' as a way of assessing the fire performance of external cladding systems.

The revisions come directly as a result of the recommendations made by Dame Judith Hackitt in her interim report from the review into building regulations and fire safety published last year. Government is also going further by asking whether 'desktop studies' should be used at all.

The consultation is seeking views on whether 'desktop studies' are appropriate for all construction products, wall systems (cladding) or for any other purpose.

If 'desktop studies' are deemed appropriate, the proposed changes include improving the transparency of assessments, enabling proper scrutiny of results and ensuring that the studies can only be carried out by properly accredited bodies that have the relevant expertise.

These proposals are subject to a full consultation that will end on 25 May 2018.

Housing Secretary, Sajid Javid said:

We have listened carefully to Dame Judith Hackitt and we are taking action to strengthen building regulations guidance, which could mean that the use of 'desktop studies' are either significantly restricted or banned altogether.

This demonstrates the tough measures we are prepared to take to make sure that cladding tests are as robust as possible and people are safe in their homes.

Desktop studies

Assessment in lieu of tests, also known as 'desktop studies' are an established part of the system for classifying the fire performance of construction products and systems set out in [paragraph 1b of Annex A of Approved Document B](#).

Their use is being considered as part of Dame Judith Hackitt's [independent review into Building Regulations and Fire Safety](#) established by government following the Grenfell Tower fire tragedy. Her final report will be published in the spring.

See further details of the [consultation](#).

The deadline for consultation responses is 25 May. Once closed the department will consider all the comments received and provide a response as soon as possible.

New British Standard

Government has commissioned the British Standards Institution (BSI) to draft a standard for the extended application of BS8414 results. This will provide detailed rules for assessments relating to cladding systems, in support of the new proposed requirements. Once the new British Standard is introduced for cladding systems, following it would be the expectation.

Press release: Directors banned for pocketing millions of Brazilian teak investments

On 12 January 2018, Junie Conrad Omari Bowers and Andrew Nathaniel Skeene gave undertakings to the Secretary of State for Business, Energy and Industrial Strategy of 10 years each.

This means Junie Bowers and Andrew Skeene are prevented from controlling or managing a limited company without leave of the court.

Junie Bowers and Andrew Skeene were directors of GFI, which traded as Global Forestry Investments, and their business promoted two teak investment schemes in Brazil.

The Insolvency Service investigation found Junie Bowers and Andrew Skeene caused or allowed the company to operate with a lack of commercial probity from 24 September 2010 until the company ceased trading in March 2014, following a compulsory liquidation.

Investigators found that GFI received £20,146,631 from the sale of plots in the Belem Sky Project and £3,863,185 from plots sold in the Para Sky Project.

But there was no evidence in GFI's records or information provided by third parties that the majority of investors in the Belem Sky project received any returns after the first year, with investors receiving only £709,884.69 in

total.

And there was no evidence in the company records or information provided by third parties of any returns being made to investors in the Para Sky project.

However, investigators discovered that investors' funds for the purchase of plots was paid to trust companies and over £13 million arising from the sale of the plots was paid to the bank accounts of Junie Bowers and Andrew Skeene.

The two directors explained that they had paid themselves the money as it helped ensure that running and operational costs of GFI could be paid whilst the company had no bank account. But investigators found that £8,820,311 of those monies were used to pay creditors of a Dubai based company controlled by Bowers and Skeene, which was wound up by the High Court in October 2014.

Anthony Hannon, Official Receiver for the Insolvency Service, commented:

Directors who receive investment monies and misapply them for purposes not to the benefit of the company can expect to face the consequences of a lengthy period of disqualification.

Mr Junie Conrad Omari Bowers, date of birth December 1976, resides in South East London.

Mr Andrew Nathaniel Skeene, date of birth November 1977, resides in Croydon.

GFI Consultants Ltd (Company Reg No 7222180) traded from St Clement's House, 27-28 Clements Lane, EC4N 7AE.

The company entered into compulsory liquidation on 3 March 2014 with a deficit to creditors of at least £2,136,888.

On 13 March 2014 Stephen R Penn of Absolute Recovery Limited of First Floor, Block A, Lovell Court, Clayfields, Doncaster, South Yorkshire, DN4 8QG was appointed liquidator of the company.

A disqualification order has the effect that without specific permission of a court, a person with a disqualification cannot:

- act as a director of a company
- take part, directly or indirectly, in the promotion, formation or management of a company or limited liability partnership
- be a receiver of a company's property

Disqualification undertakings are the administrative equivalent of a disqualification order but do not involve court proceedings.

Persons subject to a disqualification order are bound by a [range of other restrictions](#).

The Insolvency Service, an executive agency sponsored by the Department for Business, Energy and Industrial Strategy (BEIS), administers the insolvency

regime, and aims to deliver and promote a range of investigation and enforcement activities both civil and criminal in nature, to support fair and open markets. We do this by effectively enforcing the statutory company and insolvency regimes, maintaining public confidence in those regimes and reducing the harm caused to victims of fraudulent activity and to the business community, including dealing with the disqualification of directors in corporate failures.

BEIS' mission is to build a dynamic and competitive UK economy that works for all, in particular by creating the conditions for business success and promoting an open global economy. The Criminal Investigations and Prosecutions team contributes to this aim by taking action to deter fraud and to regulate the market. They investigate and prosecute a range of offences, primarily relating to personal or company insolvencies. The agency also authorises and regulates the insolvency profession, assesses and pays statutory entitlement to redundancy payments when an employer cannot or will not pay employees, provides banking and investment services for bankruptcy and liquidation estate funds and advises ministers and other government departments on insolvency law and practice.

Further information about the work of the Insolvency Service, and how to complain about financial misconduct, is [available](#).

Press release: Exporting is GREAT 'Hero' campaign unveiled at London City Airport

- Minister for Export and Trade Promotion Baroness Fairhead visited London City Airport to meet airport executives and SMEs as new Exporting is GREAT campaign is unveiled
- London City Airport announces partnership with Department for International Trade (DIT) to promote British exports and support the Exporting is GREAT campaign
- Baroness Fairhead consults airport on emerging Export Strategy shortly after making final call for business to help shape the UK's trading future

Baroness Fairhead, Minister for Export and Trade Promotion, visited London City Airport yesterday and unveiled new Exporting is GREAT branding featuring 5 export 'heroes'.

Celebrating their partnership with the Department for International Trade (DIT), the airport is hosting the creative campaign to inspire and support more UK companies to take their first steps towards selling overseas.

The artwork is being displayed in the airport's departure lounge and on their main 'City Icon' digital screen outside the terminal over the coming weeks.

Five businesses featured in the creative campaign met with the minister and CEO of London City Airport, Robert Sinclair, to discuss their export journeys. They are:

- Chemian Technologies (North East)
- Stitch and Story (South East)
- Norton Motorcycles (Midlands)
- Sensoteq (Northern Ireland)
- Joe and Seph's Popcorn (London)

The visit came shortly after Baroness Fairhead made a final call for businesses to input into the government's new [Export Strategy](#) which will report in the coming months.

Speaking at London City Airport, Baroness Fairhead said:

I am determined to help British businesses seize global export opportunities across the world.

The Department for International Trade is helping thousands of new companies to export every year through our online export support tools at great.gov.uk

This campaign provides a fantastic opportunity to showcase our export heroes and inspire many more businesses to sell their products overseas.

Robert Sinclair, CEO of London City Airport, said:

As a vital gateway for business travellers, and with its proximity to growing clusters of SMEs in East London, London City Airport is uniquely placed to strengthen DIT's new campaign, and reach a truly captive audience.

Already the airport is associated with trade exports totalling over £11 billion per year, and once our 4 year £480 million development programme is complete, even more routes to new destinations and markets will help connect businesses with opportunities overseas – helping an outward-looking Britain to prosper.

Ian Dell, Managing Director of Chemian Technology, one of the companies profiled in the campaign said:

Exporting has always been of fundamental importance to Chemian Technology since I founded the business in 1996. Most of our turnover currently comes from overseas sales and we now sell to more than 30 countries worldwide.

Exporting is certainly not an easy process but I'd encourage every company with an innovative product to do what we've done and look overseas for growth.

DIT's Exporting is GREAT campaign is currently showcasing 30+ UK businesses – from a range of sectors and regions – to inspire and support firms up and down the country to export.

Background

1. The Export Strategy is expected to report in the coming months. Evidence will be taken [until 18 April 2018](#).

2. The Department for International Trade (DIT) secures UK and global prosperity by promoting and financing international trade and investment, and championing free trade. We are an international economic department, responsible for:

- bringing together policy, promotion and financial expertise to break down barriers to trade and investment, and help businesses succeed
- delivering a new trade policy framework for the UK as we leave the EU
- promoting British trade and investment across the world
- building the global appetite for British goods and services

3. Exporting is GREAT is the government campaign to inspire and support more UK companies to take their first steps towards selling overseas and help existing exporters grow further. At great.gov.uk UK businesses can apply for real-time global export opportunities, access expert advice, trade services, training and events.

4. Featured companies:

Chemian Technologies

Darlington-based Chemian Technology develops and manufactures ingredients for the pharmaceutical, chemical and cosmetic industries. The company began exporting after a request from an overseas customer and has received market support from DIT. Overseas sales make up 70% of its revenue and they export to over 20 countries.

Norton Motorcycles

Founded in 1898 and selling its first motorcycle sold in 1902, Norton Motorcycle has been an iconic British brand for nearly 120 years. Its current owner, Stuart Garner re-established the company's UK manufacturing base and delivered the company's first motorcycle of the new millennium in 2010.

It now sells around 1,000 motorcycles each year all over the world and employs 120 staff in the UK. Government support has allowed Norton to grow its business in key markets like Australia, Japan and the USA.

Stitch and Story

Stitch & Story, a knitting kit manufacturer, has seen sales increase by 200% in the last year as a direct result of exporting to the US, following support from DIT.

Based in Dartford, Kent, the business distributes to US marketplace Uncommon Goods, as well as independent gift stores and retailers. The exporting opportunity was secured after Stitch & Story exhibited its products at consumer trade show, NY Now, with support from DIT.

The success of Stitch & Story's international expansion is being celebrated in DIT's Exporting is GREAT campaign.

Sensoteq

Northern Ireland based company Sensoteq, design and manufacture bespoke low power wireless sensors for remote machine health monitoring. The company have been exporting for over a year after government support connected them with customers overseas.

Joe and Seph's

Joe & Seph's are a family owned and run business on a mission to produce the best-tasting popcorn in the world.

The company started exporting after a French department store saw the popcorn in Selfridges in London.

Working with DIT the company started to understand the size of the export opportunity and over the last few years have focused much more proactively on exporting.

Their products are now stocked in over 25 countries with the main focus on Scandinavia and the Middle East.

Further information
