

# News story: Civil news: CLA market engagement

The Legal Aid Agency (LAA) will shortly be inviting tenders to award new Civil Legal Advice (CLA) specialist telephone advice contracts in the discrimination category of law.

CLA provides access to legally aided advice in specified categories of law, including discrimination, for eligible individuals. Most CLA advice is delivered by telephone but in some instances face to face advice may be provided.

The procurement process for CLA discrimination contracts is expected to open in late April, with services under new contracts commencing on 1 September 2018.

Before beginning the tender process, LAA is holding a market engagement event for organisations that may be interested in tendering for this service.

At the event LAA will provide information on:

- the tender process for CLA discrimination contracts
- the CLA service and contract
- the changes we intend to make to how CLA discrimination services currently operate

We will welcome feedback from attendees and will answer questions organisations may have. The market engagement event will be delivered via a web hosted event at 11 am on 16 April. We expect the session to last approximately 1 hour.

Organisations wishing to attend must register by 12 noon on Friday 13 April 2018 to secure their place.

[Register online](#) for LAA market engagement event.

Should a large number of applicants be interested in attending we may need to limit the number per organisation and/or representatives from prospective bidding organisations will be prioritised over third party consultants.

For those who cannot attend this event, information will be published on LAA's tender pages shortly afterwards.

## **Further information**

Questions or requests to attend should be sent to [civil.contracts@justice.gov.uk](mailto:civil.contracts@justice.gov.uk).

## News story: Jo Johnson: unprecedented new powers for Transport for the North are 'crucial next step'

- Rail Minister attends first Transport for the North Partnership Board in Liverpool
- TfN now hold powers to drive forward long-term strategic transport projects and have proposals considered by government
- Rail Minister will also visit Liverpool Lime Street to see progress on delivering the Great North Rail Project worth well over £1 billion

Jo Johnson is encouraging the north to speak with one 'strong, unified voice' after meeting leaders from across the region in Liverpool today (5 April 2018) to discuss the unprecedented new powers of Transport for the North (TfN).

The Rail Minister called upon northern leaders to drive forward vital transport projects such as Northern Powerhouse Rail after he attended the first meeting [since TfN was legally established as England's first sub-national transport body](#) – backed by £260 million of government funding.

Rail Minister Jo Johnson said:

Between 2015 and 2020 the government will have spent over £13 billion – more than any other in history – to transform northern transport, boosting economic growth and unlocking the incredible potential of the great towns and cities of the north.

Establishing Transport for the North is a crucial next step in giving the north greater influence than ever over transport investment. It is imperative that the north now speaks with a strong, unified voice to identify where we can work together to transform journeys for people.

The fantastic progress on upgrades to Liverpool Lime Street, which will enable more trains every hour and direct services to Scotland, demonstrates our unwavering commitment to delivering the transport links the north needs.

With significant new powers to drive forward transformative projects like Northern Powerhouse Rail and smart ticketing, I am confident that TfN will play a pivotal role in shaping the future of northern transport.

## [Transport for the North promotional video](#)

During his visit to Liverpool Lime Street, Jo Johnson met with Network Rail staff delivering major upgrades to platforms and signalling at the great Victorian station, as part of the Great North Rail Project.

With work to deliver an extra platform to be completed this summer, the upgrade will enable 3 new services per hour in and out of Lime Street.

Patrick Cawley, director of route sponsorship at Network Rail, said:

Our major transformation of Liverpool Lime Street is a key part of the Great North Rail Project, and it will be fantastic to show Rail Minister Jo Johnson what we've done so far and what work is currently being delivered while the station remains open.

Once complete in October this year, passengers will see completely remodelled platforms and 2 brand new platforms, increasing the total number to 10.

Longer, better managed platforms will accommodate longer trains, helping provide more space and seats for passengers. This is vital ahead of the significant increase in passengers expected in the coming years.

## [News story: Scottish quarterly GDP figures show continued growth](#)

Commenting on the Scottish GDP figures published Wednesday 4 April 2018, Scottish Secretary David Mundell said:

It is good news that today's GDP figures show that Scotland's economy continues to grow. I note a modest improvement in Scotland's important services sector, and encouraging growth in production industries.

However, it is increasingly concerning that a significant gap persists between Scotland's economy and the rest of the UK. The Scottish Government has the powers to boost productivity and strengthen the economy, and must use them to close this gap. By making Scotland the highest taxed part of the UK, the Scottish Government risks damaging, rather than growing, our economy.

Scotland's Gross Domestic Product (GDP) grew by 0.3% in real terms during the fourth quarter of 2017, following growth of 0.2% in the third quarter of 2017. The equivalent growth rate for the UK as whole during the third quarter was 0.4%.

In the latest quarter, output in the Scottish Services sector grew by 0.5%, output in the Production sector grew by 0.9%, and output in the Construction sector fell by 2.6%.

Compared to the same quarter last year, Scottish GDP has grown by 1.1%. Equivalent UK growth over the year was 1.4%.

In 2017, annual GDP increased by 0.8% compared to 2016, following growth of 0.2% between 2015 and 2016. The equivalent UK growth rate for 2017 was 1.8%.

## **[Press release: New building performance standards to save MOD up to 20%](#)**

Infrastructure is a vital defence capability delivering accommodation, training facilities and critical assets such as runways and workshops to enable our armed forces to live, work, train and deploy. Recent DIO projects include building a jetty at Portsmouth Naval Base so the aircraft carrier HMS Queen Elizabeth can dock, and resurfacing runways at RAF Akrotiri, RAF Gibraltar, and RAF Valley.

The defence estate is large, diverse and widely dispersed across the UK and overseas. In the UK, it covers around 230,000 hectares comprising military training areas, naval bases, barracks, airfields, supply depots, and offices. Construction on these sites is sometimes subject to specific defence requirements but the majority is similar to other sectors, so the new standards have been developed in accordance with comparators from industry and other government departments. They are designed to be used by MOD staff and industry partners responsible for the planning, costing and delivery of the infrastructure assets and projects funded by MOD.

The new standards, Joint Services Publication (JSP) 315, are expected to save up to 20% on construction costs by creating efficient standards, enabling faster and more cost-effective project development and delivery. They also recognise the success and cost savings DIO has achieved in recent years from increasing the use of modular construction and standardisation of designs, as well as utilising 3D digital and interactive technology.

Graham Dalton, DIO's Chief Executive, said:

The new standards mark a step forward in how DIO enables our military to provide the most effective and efficient solutions and how we work better with the construction industry. The revised standards make it absolutely clear what our requirements are and will contribute to a significant cost and time saving on our infrastructure projects.

The new standards and supporting guidance set a series of reference designs for specific defence infrastructure requirements and benchmark capital and operational costs for the planning and delivery of MOD infrastructure.

The revised JSP 315 can be found [here](#)

## [Press release: Images offer glimpse of A45 Chowns Mill upgrade](#)

As part of the government's £15.2bn road investment strategy, Highways England is developing a scheme to improve the A45/A6 Chowns Mill junction, leading to more reliable and safer journeys for people and businesses by reducing congestion and increasing capacity on the road.

Work will include widening the A45 and A6 approaches to provide additional traffic lanes, creating an additional roundabout section on the south side of the existing roundabout and introducing traffic signals to manage traffic safely and effectively.

The work will:

- improve journey times by providing additional lanes
- improve safety by changing the junction layout and introducing traffic signals – managing the flow of traffic through the junction more effectively and reducing the chance of collisions
- support economic growth by encouraging continued investment in the regional economy and support new business and residential opportunities
- improve access for cyclists and pedestrians thanks to new signalled crossings which will make it safer to cross the junction – all crossing points will be designed for users with disabilities

The A45 is a key link between the A14 and M1, serving the growing Northampton, Wellingborough and Rushden areas.

As part of the scheme the junction will be redesigned as a half hamburger layout with a new link road connecting the A6 North and A5028 with the

existing roundabout. This will improve the existing junction to allow better flow of traffic reducing congestion through the junction. All approaches will be widened to provide extra lanes and increase capacity.

Highways England project manager, Rachael Langfield, said:

Chowns Mill roundabout currently suffers from severe congestion at peak travel times, leading to long queues on all approaches. This congestion will increase as traffic levels grow.

The scheme we have developed will improve journey times and safety along the A45 and A6 corridors as well as boost capacity to support planned growth in the local area, which is great news for the local and regional economy.

There will be no need to purchase any additional land with improvements to the junction carried out within the existing roundabout boundary.

Construction is due to begin in late 2019 and is expected to be completed within two years.

Public information exhibitions take place tomorrow and Saturday where people can find out more.

The exhibition times and locations are as follows:

- Friday 6 April 2018 – 2pm to 8pm Park Road Baptist Church, Park Road, Rushden, Northamptonshire, NN10 0RG
- Saturday 7 April 2018 – 10am to 4pm Park Road Baptist Church, Park Road, Rushden, Northamptonshire, NN10 0RG

People can also ask questions about the scheme by:

### **General enquiries**

Members of the public should contact the Highways England customer contact centre on 0300 123 5000.

### **Media enquiries**

Journalists should contact the Highways England press office on 0844 693 1448 and use the menu to speak to the most appropriate press officer.
