[Press release: Toyota celebrates 25 years of manufacturing in Wales](#)

Originally released by Toyota Motor Manufacturing (UK) Ltd.

Toyota Motor Manufacturing (UK) Ltd celebrated the milestone of 25 years of manufacturing vehicle engines in Wales on 6 October. The guests of honour at

the ceremony were Minister for the UK Government in Wales, Guto Bebb MP and Cabinet Secretary for Economy and Infrastructure, Ken Skates AM.

Since the start of engine production in 1992 the plant has produced over 5.1 million engines/ engine sets in total and in 2010 became the first plant outside Japan to manufacture Toyota's class leading Hybrid engine.

The engine plant currently supplies to Toyota plants in Europe and across the World including Africa, Turkey, Japan and South America. The state of the art manufacturing facility in North Wales currently produces 1.6ltr and 1.8ltr petrol engines and 1.8ltr Hybrid engines.

Minister for the UK Government in Wales, Guto Bebb MP said:

I have been delighted to witness the benefits of Toyota's longstanding investment in Deeside to the North Wales regional economy.

Today is a celebration of the sustainable employment created by Toyota in the area, contributing to a stronger Welsh and UK economy. It is also a recognition of the plant's commitment to cutting edge engine technology, making Wales a leading exporter in the Hybrid engine field.

Commenting on this important milestone, the Economy and Infrastructure Secretary, Ken Skates said:

I am delighted to be at Toyota to celebrate 25 year of engine production here on Deeside. As a Government we are proud of our strong relationship with Toyota, indeed they are one of our key anchor companies, and of huge strategic importance to both the North Wales and broader Welsh economy.

Toyota are known and respected throughout the world. As a Welsh Government we look forward to continuing our productive relationship with the company and I am optimistic t that there will many more milestones ahead for us to celebrate together.

Jim Crosbie Toyota Manufacturing UK Director added:

This is an important milestone for Toyota Manufacturing UK's Engine plant. It confirms Toyota's long term commitment to the economy and providing employment in advanced manufacturing in Wales. We are proud to be in Wales and would like to thank the Welsh and local

governments, our local communities and particularly our members and customers.

Today is an opportunity for everyone involved with Toyota in Wales to celebrate the achievements of the last twenty five years and look forward to the new challenges and opportunities in the years to come.

Press release: FOREIGN FLAGGED SHIPS UNDER DETENTION IN THE UK DURING SEPTEMBER 2017

During September, there were two new detentions of foreign flagged vessels in a UK port. Seven vessels remained under detention from previous months. A total of six vessels remain under detention at the end of September.

1. In response to one of the recommendations of Lord Donaldson's inquiry into the prevention of pollution from merchant shipping, and in compliance with the EU Directive on Port State Control (2009/16/EC as amended), the Maritime and Coastguard agency (MCA) publishes details of the foreign flagged vessels detained in UK ports each month.
2. The UK is part of a regional agreement on port state control known as the Paris Memorandum of Understanding on Port State Control (Paris MOU) and information on all ships that are inspected is held centrally in an electronic database known as THETIS. This allows the ships with a high risk rating and poor detention records to be targeted for future inspection.
3. Inspections of foreign flagged ships in UK ports are undertaken by surveyors from the Maritime and Coastguard Agency. When a ship is found to be not in compliance with applicable convention requirements, a deficiency may be raised. If any of their deficiencies are so serious they have to be rectified before departure, then the ship will be detained.
4. All deficiencies should be rectified before departure if at all possible.

- When applicable, the list includes those passenger craft prevented from operating under the provisions of the EU Directive on Mandatory Surveys for the safe operation of regular Ro-Ro ferry and high speed passenger craft services (1999/35/EU).

Notes on the list of detentions

- Full details of the ship. The accompanying detention list shows ship's International Maritime Organization (IMO) number which is unchanging throughout the ship's life and uniquely identifies it. It also shows the ship's name and flag state at the time of its inspection.
- Company. The company shown in the vessel's Safety Management Certificate (SMC) or if there is no SMC, then the party otherwise believed to be responsible for the safety of the ship at the time of inspection.
- Classification Society. The list shows the Classification Society responsible for classing the ship only.
- Recognised Organisation. Responsible for conducting the statutory surveys: and issuing statutory certificates on behalf of the Flag State
- White (WL), Grey (GL) and Black lists (BL) are issued by the Paris MoU on 01 July each year and shows the performance of flag State.

News story: Fish merchant fined for fisheries offences

Midland Fish Company Ltd, which operates from Fleetwood Fish Market, was sentenced at Blackpool Magistrates' Court on 25 September 2017 in a prosecution brought by the MMO.

The court heard how the company, a registered buyer of first sale fish, had failed to submit sales notes to the MMO within the 48 hour period required by EU regulations.

Investigations by MMO officers revealed a total of 49 sales notes, with a total value of £13,811 and a total weight of 1,875kg were not submitted to the MMO by the company between 23 April 2014 and 29 September 2016.

Director Kenneth Hayton pleaded guilty on behalf of the company and was ordered to pay a fine of £2,500, £2,197.50 costs and a victim surcharge of £170.

A spokesperson for the MMO said:

The requirement to submit sales notes within 48 hours enables the MMO to gain an accurate picture of fish stocks on which to base its fisheries management decisions.

When, as in this case, sales notes are not submitted that picture becomes partial, distorted or inaccurate. This prosecution shows that the MMO will take the appropriate enforcement action to prevent such a situation occurring.

News story: Major counter-terrorism

exercise concludes

Exercise Border Reiver, which has been more than a year in the planning, has concluded following 3 days of activity across central and eastern Scotland and Northumbria.

The exercise, announced by the Prime Minister during a visit to Glasgow in March, forms part of the UK Home Office's National Counter-Terrorism Exercise Programme.

Exercises like this take place throughout the year and throughout the country, allowing the emergency services, governments and other agencies to practice and plan for a variety of terrorist incidents.

Speaking after the exercise, Home Secretary Amber Rudd said:

On too many occasions this year, our emergency services have united in their response to horrific terrorist atrocities with the utmost professionalism.

The country has seen first-hand why it is vital that we work together – governments, police, fire and ambulance services and the private sector – to ensure we are fully prepared for terrorist attacks.

This week's exercise was an opportunity to test and practice our plans. It formed one of a series of counter-terrorism exercises that this government funds every year and which take place across the country.

We set an intentionally challenging cross-border scenario which brought together Police Scotland and Northumbria Police, countless agencies from across the UK and both the UK and Scottish governments, testing our ability to work across separate legal systems in response to what could have been a sustained attack in both Scotland and England.

I took part, chairing a meeting of COBR on Tuesday where UK and Scottish government ministers worked together to consider how best to support the front line emergency services and the wider investigation.

There were around 1,000 people involved in the exercise over 3 days and all were a credit to the organisations they represented.

I thank all those involved in the exercise for their efforts in ensuring its success, and for responding to the attack scenario in the same collected manner we have come to expect from our brilliant emergency responders. Be assured that the lessons learned from this exercise will be used to inform plans to respond to any future

attacks.

I also extend my gratitude to the Royal Bank of Scotland, who hosted the initial stage of the exercise at their headquarters in Edinburgh and to their staff for contending with the noise and the road closures the exercise brought with it.

I have come away from this week reassured that the terrorist threat will always be met with a strong and unified response across the whole of the United Kingdom.

Police Scotland, Northumbria Police, the Scottish Fire and Rescue Service, Scottish Ambulance Service, North East Ambulance Service, Northumberland and Tyne and Wear Fire and Rescue Service, Transport Scotland, NHS Scotland, NHS England and the Ministry of Defence took part in the exercise, as did Scottish and UK government ministers and officials.

City of Edinburgh, Angus and Northumberland County Councils also tested their responses to a terrorist incident in their areas.
