## [3,750 teachers in England on long-term stress leave](#)

There were 3,750 teachers in England on long-term stress leave in 2016/17, up 5% on the previous year, Liberal Democrat research has revealed.

It means one in 83 teachers is now on long-term leave of one month or more for stress and mental health issues, up from one in 95 three years ago and one in 90 last year.

## [Chemo cuts will cause lasting damage](#)

The Churchill Hospital in Oxford is having to cut chemotherapy services due to staff shortages.

**This is a horrendous situation.**

Vital treatments that can save or extend life are under threat because of the pressures the NHS faces.

All of us will have friends and loved ones who have had a cancer diagnosis, and to learn that they might face a delay or a cut back in treatment to alleviate symptoms is appalling.
